Public Health

Unit code:

HNS000064

QCF Level 3:

HEC National 4

Credit value:

10

Guided learning hours: 60

Aim and purpose

This unit aims to enable learners to gain knowledge of the origins of public health policy and the current strategies in place. They will also develop an understanding of how public health is measured, the origin and development of systems for protecting and promoting public health, and the range of key groups in influencing related policy.

Unit Introduction

Public health is concerned with protecting and improving the health of the population, rather than individual health. Practitioners working in the health and social care sectors need to be aware of the implications of public health policy on services and those who use services. They need to be able to consider the reasons for improving public health for both individuals and wider society.

Learners will gain an understanding of current patterns of disease and consider factors affecting health in the UK. Learners will also have the opportunity to consider different methods of promoting and protecting public health.

Learning outcomes

On completion of this unit a learner should:

1. Know the origins of public health policy and current public health strategies
2. Understand factors that affect health status and patterns of ill health
3. Understand how public health is promoted and protected
