**A partire dallo spazio** Maurizio Vivarelli, 2017-01-25 Questo volume si inserisce in una linea di riflessione che nella sua fisionomia generale va ricondotta all'ampio dibattito nazionale ed internazionale sui temi connessi

alle trasformazioni dell'identità della biblioteca e della biblioteca pubblica in particolare secondo una prospettiva che anche quella della lunga durata prendendo in esame questioni che hanno a che fare con la dimensione spaziale di questa problematica identità o che comunque dal concetto di spazio nella sua indefinita dimensione teorica estetica metaforica traggono origine. A questo asse centrale del libro si collegano ulteriori temi dalla discussione della evoluzione in senso sociale della biblioteconomia alla riflessione storico architettonica sul concetto di canone dalla ipotesi di arricchire lo spazio percettivo della biblioteca fino al tema di grande interesse della selezione raccolta ed analisi dei dati digitali. Dati che in quanto tracce rendono disponibili informazioni sulle azioni e sulle attività riferibili al modo con cui le persone leggono la forma dell'ambiente bibliotecario e del suo complesso ecosistema informativo. *Catalogo degli editori italiani 2005* Associazione italiana editori, 2005    **Chi è chi, editoria italiana**, 1987    **Guida per l'utenza** Università degli studi di Trento.
