In the thirty years after World War II, American intellectual and artistic life changed as dramatically as did the rest of society. Gone were the rebellious lions of modernism. Joyce, Picasso, Stravinsky, and nearing exhaustion were those who took up their mantle as abstract expressionism gave way to pop art and the barren formalism associated with the so-called high modernists wilted before the hothouse cultural brew of the 1960s. According to conventional thinking, it was around this time that postmodernism with its characteristic skepticism and relativism was born. In *Late Modernism*, historian Robert Genter remaps the landscape of American modernism in the early decades of the Cold War, tracing the combative debate among artists, writers, and intellectuals over the nature of the aesthetic form in an age of mass politics and mass culture. Dispensing with traditional narratives that present this moment as marking the exhaustion of modernism, Genter argues instead that the 1950s were the apogee of the movement as American practitioners—abstract expressionists, Beat poets, formalist critics, color field painters, and critical theorists—among others debated the relationship between form and content, tradition and innovation, aesthetics and politics. In this compelling work of intellectual and cultural history, Genter presents an invigorated tradition of late modernism centered on the work of Kenneth Burke, Ralph Ellison, C. Wright Mills, David Riesman, Jasper Johns, Norman Brown, and James Baldwin, a tradition that overcame the conservative and reactionary politics of competing modernist practitioners and paved the way for the postmodern turn of the 1960s. **Black Bodies, White Gazes** George Yancy, 2008-09-26. *Black Bodies, White Gazes: The Continuing Significance of Race* understands Black embodiment within the context of white hegemony within the context of a racist anti-Black world. Yancy demonstrates that the Black body is a historically lived text on which whites have inscribed their projections, which speak equally forcefully to whites' own self-conceptualizations. **Notes on Contemporary Literature**, 1981. *American Novelists Since World War II* Jeffrey

Helterman, Richard Layman, 1978 Contains alphabetically arranged entries that provide career biographies of eighty American authors who either began writing novels after 1945 or have done their most important work since then each with a list of principal works and a bibliography

The Specter and the Speculative Mae G. Henderson, Jeanne Scheper, Gene Melton, 2024-05-31 The Specter and the Speculative Afterlives and Archives in the African Diaspora engages in a critical conversation about how historical subjects and historical texts within the African Diaspora are re-fashioned, re-activated, and re-articulated as well as parodied, nostalgized, and defamiliarized to establish an afterlife for African Atlantic identities and narratives. These essays focus on transnational, transdisciplinary, and transhistorical sites of memory and haunting textual, visual, and embodied performances in order to examine how these living archives circulate and imagine anew the meanings of prior narratives liberated from their original context. Individual essays examine how historical and literary performances in addition to film, drama, music, dance, and material culture thus revitalized, transcend, and speak across temporal and spatial boundaries not only to reinstate traditional meanings but also to motivate fresh commentary and critique. Emergent and established scholars representing diverse disciplines and fields of interest specifically engage under-explored themes related to afterlives, archives, and haunting.

[The Critical Response to Ralph Ellison](#) Robert Butler, 2000-04-30 Ralph Ellison's literary career began in 1937 with the publication of his review of Waters' *Edward Turpin's These Low Grounds*. Over the next 15 years he published 10 short stories and 37 essays on literary, cultural, and political topics. But when *Invisible Man* was published in 1952, Ellison received immediate acclaim from a wide variety of critics, scholars, and novelists. While his novel emerged as a major work of African American literature, it also engaged the European literary tradition and influenced an entire generation of post-World War II writers. Ellison is now one of the most studied African American writers, and the posthumous publication of his second novel, *Juneteenth*, in 1999 has drawn even more attention to his contribution. Through previously published reviews and essays and original material, this book charts the response to Ellison's writings. While the bulk of the volume focuses on *Invisible Man*, the book also includes sections devoted to Ellison's short fiction and nonfiction, as well as posthumous estimates of his work. A chronology highlights the most important events in his life and career, while an introductory essay overviews the broad trends in Ellison scholarship. The volume concludes with a selected bibliography of primary and secondary works.
