

MATH 1020 Final Exam Review  
Chapter 3

Note: This review set should not be considered inclusive or exclusive of questions/material chosen for your upcoming test. It is simply extra problems to help you review the curriculum with some "new" problems that you have not seen in the lecture or learning activities.

The course objective list is inclusive of the objectives that will be chosen for your upcoming test.

1. Review your Test 3 taken this semester. Access the questions, your answers, and the correct answers through the Canvas gradebook. Review all the questions – not just the questions you had incorrect.  
Note: Be sure to realize that 1.6 was tested on Test 2.
2. Review the Test 3 review: CC MATH 1020 Unit 3 Review 3.1-3.6, 4.1-4.4  
The course objectives are listed in this review document (and will not be restated here.)

Please note questions on the final exam will be randomized. But these review problems are roughly in objective order to help you do a logical orderly review.
