A study investigating the factors that cause delays and cost overruns in construction projects in India Kushal Agrawal, 2013-12-09 Master s Thesis from the year 2013 in the subject Business economics Business Management Corporate Governance grade 62 University of Leeds course Msc Management Project Management language English abstract Anyone who has got a rework or renovation work done in their house can tell you what a troublesome activity it is Not only that it seems to take forever to be completed and is heavy on the wallet Even an

international icon like the Sydney Opera house which has always been Australia's pride was delayed by 10 years with its budget shooting up by 14.5 times its estimated budget of 7 million. There are plenty of such examples available. It is very common for construction projects to get delayed and outrun their budget. This is a tough scenario faced by almost all projects around the world with India not being an exception. Thus the researcher has undertaken this research to investigate the factors responsible for delays and cost overruns. Both secondary research and primary research have been carried out and the barriers have been identified. Such barriers create problems that hinder the efficiency and progress of a project making it lag behind its schedule. The factors identified in the secondary research are compared to the findings of the primary research to see if they hold true in the Indian context.

Foundations of Clinical Nurse Specialist Practice Janet S.

Fulton, Brenda L. Lyon, Kelly A. Goudreau, 2009-10-16 Designated a Doody's Core Title. This comprehensive book addresses pertinent issues for clinical nurse specialists from clinical interventions to nursing care delivery and nursing leadership. This is a wonderful addition to the field of nursing. Score 100.5 stars. Doody's Foundations of Clinical Nurse Specialist Practice serves as a comprehensive textbook and practice reference for graduate level CNS students and practitioners. Compiled and edited by experts in the field, this book discusses every aspect of Clinical Nurse Specialist practice from its historical foundations to chapters on implementing the business of CNS practice. With this book, readers will gain essential knowledge on delivering client care to the individual patient, the family, and the community. The text includes major sections on designing and evaluating client care interventions, promoting innovation, change, and diffusion in practice, client care delivery, and a wealth of information on the business aspects of CNS practice. Key topics discussed: How to use the Clinical Reasoning Model (CRM), a clinical inquiry guide for problem solving; How to use complex adaptive systems theory to influence change; Using population-based data analysis to improve patient care outcomes; Exploring the business aspects of CNS practice with discussions on economics, consultation, technology, management, and billing and reimbursement issues; Practice Exemplars on hospital-based CNS practice, collaborative private practice, and entrepreneurship; Role Exemplars that range from pediatric, bariatric, and pain management to psychiatric liaison, rehabilitation, CNS, and Emergency CNS.
