## **Extreme Programming Versus Cmmi Conflicts And:**

**Extreme Programming and Agile Methods - XP/Agile Universe 2002** Don Wells, Lauris Williams, 2003-08-02 The second XP Universe and first Agile Universe brought together many people interested in building software in a new way. Held in Chicago August 4-7 2002, it attracted software experts, educators, and developers. Unlike most conferences, the venue was very dynamic. Many activities were not even well defined in advance. All discussions were encouraged to be spontaneous. Even so, there were some written words available, and you are holding all of them now. We have collected as much material as possible together into this small volume. It is just the tip of the iceberg, of course. A reminder to us of what we learned, the people we met, and the ideas we expressed. The conference papers, including research and experience papers, are reproduced in these proceedings. Forty-one papers were submitted. Each submitted paper received three reviews by program committee members. The program committee consisted of 40 members. Papers submitted by program committee members were refereed separately. This ensured that reviewers could provide an honest feedback, not seen by the paper submitters. In many cases, the program committee shepherded authors to significantly improve their initial submission prior to completing the version contained in these proceedings. In the end, the program committee chose 25 papers for publication, 60% acceptance.

Conferences have been held since 1994 in Dublin, 1995 in Vienna, Austria, 1997 in Budapest, Hungary, 1998 in Gothenburg, Sweden, 1999 in Pori, Finland, 2000 in Copenhagen, Denmark, 2001 in Limerick, Ireland, 2002 in Nuremberg, Germany, 2003 in Graz, Austria, 2004 in Trondheim, Norway, 2005 in Budapest, Hungary, 2006 in Joensuu, Finland, 2007 in Potsdam, Germany, 2008 in Dublin, Ireland, and 2009 in Alcalá, Spain. EuroSPI established an experience library, library.eurospi.net, which will be continuously extended over the next few years and will be made available to all attendees. EuroSPI also created an umbrella initiative for establishing a European Qualification Network, in which different SPINs and national initiatives join mutually beneficial collaborations. ECQA European Certification and Qualification Association, www.ecqa.org. With a general assembly during October 15-16 2007, through EuroSPI partners and networks, in collaboration with the European Union, supported by the EU Leonardo da Vinci Programme, a European certification association has been created, www.eu-certificates.org, www.ecqa.org, for the IT and services sector to offer SPI knowledge and certificates to industry, establishing close knowledge transfer links between research and industry.

Agile Processes in Software Engineering and Extreme Programming Pekka Abrahamsson,Michele Marchesi, Frank Maurer,2009-05-19 The field of software engineering is characterized by speed and turbulence in many regards While new ideas are proposed almost on a yearly basis very few of them live for a decade or a longer Lightweight software development methods were a new idea in the latter part of the 1990s Now ten years later they are better known as agile software development methods and an active community driven by practitioners has formed around the new way of thinking Agile software development is currently being embraced by the research community as well As a sign of increased research activity most research oriented conferences have an agile software development track included in the conference program The XP conference series established in 2000 was the first conference dedicated to agile processes in software engineering The idea of the conference is to offer a unique setting for advancing the state of the art in research and practice of agile processes This year s conference was the tenth consecutive edition of this international event Due to the diverse nature of different activities during the conference XP is claimed to be more of an experience rather than a regular conference It offers several different ways to interact and strives to create a truly collaborative environment where new ideas and exciting findings can be presented and shared This is clearly visible from this year s program as well
