1 NEW YORK TIMES BESTSELLER. From the author of *Sapiens* comes the groundbreaking story of how information networks have made and unmade our world. Strikingly original. A historian whose arguments operate on the scale of millennia has managed to capture the zeitgeist perfectly. *The Economist*. This deeply important book comes at a critical time as we all think through the implications of AI and automated content production. Masterful and provocative. Mustafa Suleyman, author of *The Coming Wave*. For the last 100,000 years, we *Sapiens* have accumulated enormous power. But despite all our discoveries, inventions, and conquests, we now find ourselves in an existential crisis. The world is on the verge of ecological collapse. Misinformation abounds. And we are rushing headlong into the age of AI, a new information network that threatens to annihilate us. For all that we have accomplished, why are we so self-destructive? *Nexus* looks through the long lens of human history to consider how the flow of information has shaped us and our world. Taking us from the Stone Age through the canonization of the Bible, early modern witch hunts, Stalinism, Nazism, and the resurgence of populism today, Yuval Noah Harari asks us to consider the complex relationship between information and truth, bureaucracy and mythology, wisdom and power. He explores how different societies and political systems throughout history have wielded information to achieve their goals, for good and ill. And he addresses the urgent choices we face as non-human intelligence threatens our very existence. Information is not the
