Undergraduate study in  
**Economics, Management,  
Finance and the Social Sciences**

Advanced mathematical analysis is a core module for students studying Economics, Management, Finance and the Social Sciences. It provides a rigorous foundation for the study of these subjects, covering topics such as real analysis, complex analysis, and differential equations. The module is designed to develop students' mathematical skills and their ability to apply these skills to problems in their respective fields. It is a prerequisite for many other modules in the programme.
