verify homeownership status for the parents or guardians of student participants A pretest posttest causal comparative design was used The pretest consisted of each student s previous EOCT score while the posttest consisted of each student s End of Course Test score after repeating the course Two way Analysis of Covariance ANCOVA was used to analyze the archival data in the study Results of the study indicated a statistically significant difference on the posttest when comparing the blended online setting and the traditional classroom setting but no statistically significant difference based on a family s homeownership status and no significant interaction between the mode of instruction and parents homeownership status

**The Future of Education. Advantages and Disadvantages of Online Education** D.M.C. Wayne,2018-05-14

Academic Paper from the year 2018 in the subject Didactics Common Didactics Educational Objectives Methods language English abstract This work focuses on Future Education and its characteristics Thereby it will have a closer look at the advantages and disadvantages of Online Education Over the past several decades the rapid technological advancement has had an impact on every aspect of human life and education has been one of the most important beneficiaries of this phenomenon However as technology continues to take a central role in today s society educational experts and professionals have raised concerns on the possible impacts that this will have not just on the system but also on the students and the society as whole Some critics arguing that technology would in the future replace human intelligence This they argue would be as a result of the assumption of control by technologies over a considerable measure of undertakings and capacities that educators have been educating their students in the conventional education system It is the position of this paper that despite the rise of technology and the central role it is now playing in the society Education faces no threat rather with the changing world technology will only be driving force behind the restructuring of the education model as it aligns itself to the global changes Committee Meeting of Joint Committee on the Public Schools New Jersey.
