Create Wealth with Private Equity and Public Companies Norman Meier, 2014-04-14 Getting the money you need to finance your business with Private Equity. When starting a new business, you will need money. Depending on your business idea, you may not have the necessary funds to realize your idea. Most people think that going through a bank and getting a loan is the only way to get started. They soon realize that banks are not willing to lend money on an idea. Too often, this is the end of the dream. Another way to finance your business idea is to raise money from private investors. There are many great business ideas that struggle to find investors willing to invest. A business should be set up in a way that there is a structure and plan for investors to be able to buy shares of the company.
