## **Islamic Studies Questions And Answers In Urdu:**

What Is Wrong with Islamic Economics? Muhammad Akram Khan, 2013-01-01 I read with great interest the current state of Islamic economics and finance as examined by Muhammad Akram Khan who has given a fresh outlook for the readers to find out its limitations and to search for its solutions Khan has read widely in the subject matter and presented his views with reference to literature and thoughtful and logical arguments While many may not agree with his arguments or will have a better explanation I find his arguments at least worthy of examination to strengthen the arguments of those who might oppose him Although Khan is critical of the subject matter he is very sympathetic to the greater objectives of Islamic economics and provides his own prescriptions to achieve those objectives M Kabir Hassan University of New Orleans US This is a very thought provoking book coming at a crucial stage in the development of Islamic economics and finance Although the reader may not agree with some of the conclusions reached it is clearly a scholarly and extensively researched piece of work it should be read by all serious students of the subject area Amongst other things it throws light on the reasons why the practical implementation of Islamic economics and finance particularly in relation to the financial system and financial institutions has not always conformed to the true theoretical foundations laid down by Islamic scholars John Presley Loughborough University UK and recipient of Islamic Development Bank Prize in Islamic Finance 2001 2002 Islamic economic system is a type of capitalism with a spiritual dimension is a major conclusion of this book I applaud this insight of Muhammad Akram Khan The same can be perhaps said of Islamic finance which in its hurry to build viable and efficient financial institutions has ignored the very same need to start with profits and risk sharing principle and no riba principles to build pricing models to anchor the new sub discipline The good news is that in the course of time to come Akram s advocacy may be realised since such serious works have already begun Mohamed Ariff University Putra Malaysia and Bond University Australia Although there are many books on Islamic economics this critical but sympathetic account by Muhammad Akram Khan is worthy of attention The author has clearly read widely on the subject and appreciates the limitations of much that he has read Islamic economics is a work in progress and by focusing on its shortcomings Khan challenges the assumptions of many working in the field His discussion of methodology is insightful and even the prohibition of riba for many the defining characteristic of Islamic finance is examined from a fresh perspective While many will not agree with the analysis and the conclusions even critics should be able to appreciate the strengths of the arguments made In summary this is a worthwhile and in many respects an innovative survey of the state of Islamic economics and finance It deserves to be widely read Rodney Wilson Durham University UK What is Wrong with Islamic Economics takes an objective look at the state of the art in Islamic economics and finance It analyses reasons for perceived stagnation and also suggests a way forward As well as probing various myths the book presents several innovative ideas and a methodology for developing the subject on new foundations It also highlights weaknesses in the conventional position on prohibition of interest which has led Islamic banks devise a series

of legal tricks The author notes how the original aim of devising a new brand of banking has become less prominent whilst Islamic banks now position themselves more closely to conventional banks The book also offers insights into how certain traditional thinking has seemingly ignored the egalitarian spirit of the law of zakah and created a scenario where zakah is not able to help the billions of poor people around the globe This detailed book will appeal to students professors researchers Islamic banks and finance houses consulting companies accounting firms and regulatory bodies Professional economists libraries in research and training organizations as well as anyone with a general interest in the topic will find much to interest them

**The Weekly Khutbah Volume 3: 2015-2016** Saiyan Islam,2017-12-30 Every week Friday comes and for us Muslims Friday is very crucial in the sense we have our Jummah prayers Along with the Jummah prayers we have our weekly sermons What happens is that most of us tend to forget the sermons delivered by the Imams So I thought of this system of writing down all the sermons so that the knowledge we gain gets preserved Furthermore the sisters who are mostly unable to attend the Jummah prayer in many countries do not get the chance to learn from the weekly sermons The males can easily record their learning and teach the women at their home All the sermons are from the Imams from the Masjids I attend weekly and the Hadiths mentioned are from their own sermons Sometimes the Imams may tend to refer to weak Hadiths I have tried my best to classify them as much as possible May Allah have mercy upon us all and may we get guided to the Straight Path Ameen
