Stein, 2008-05-02 An Easygoing Highly Entertaining Refresher on all the Math You ll Ever Need What do two goats and a car have to do with making good decisions Was the golden ratio used to build the Great Pyramid of Khufu Can it be that some numbers are unmistakably hot while others are inherently cool With his infectiously enthusiastic and engaging style award winning teacher and author Sherman K Stein offers a new appreciation for mathematics from the beauty of its logic as inevitable and memorable as a Mozart symphony to its amazing power and pervasiveness in our lives Requiring no math knowledge beyond basic arithmetic and high school geometry *Strength in Numbers* is an enlightening introduction to all the math you ll ever need *The Math Behind...* Colin Beveridge (Maths coach), 2017 A compilation of everyday events analyzed for their probability of occurring The odds are determined using mathematical equations and science An entertaining illustrated reference to the role of mathematics in everyday life Topics examined are the human condition sports and games traveling from A to B digital technology chance and coincidence and more Mathematics for Everyday Life 11 E.
