

Paper Example: Internship Experience as an Accountant Essay

Introduction

The internship provides an opportunity to apply the theories learned in class in real work situations, identify one's true interests as a basis for deciding on their area of expertise, and identify transferable skills, hard and soft, as well as their importance to stand out in the job market (Lansdell et al., 2019). The internship is the first contact with the job market. During this period, new professionals can learn various skills and discover what the day-to-day in the profession they have chosen is like (Dunbar et al., 2016).

The following fundamental lessons are learned during the internship:

The need to improve - The internship is a great opportunity to learn to fulfill tasks relevant to the desired career. Also, interns have the opportunity to improve the skills they already have.

Valuing the curriculum - Obviously, a professional experience enriches anyone's curriculum. The trainee must use this to their advantage and include in the document what were the responsibilities and contributions given to the company.

Get recommendations - A good intern can get referrals from their bosses, either for future hire at the company or for other related vacancies. Also, some companies have letters of recommendation that can be included in their CVs.

New connections - The internship phase allows contact with several people, such as colleagues, bosses, and customers, for example. The creation of networking, that is, a network of professional contacts, begins at the beginning of your career.

A greater sense of professionalism - The internship is the chance to apply, in practice, the knowledge of a course or college. In this day-to-day, young people start to learn more about the professional posture they should adopt and how they need to behave in the workplace.

More confidence in career paths - The internship is the right time to find out what type of work matches or does not match the personality of the young professional. From this lesson, it is possible to invest in other vacancies in the same area of interest or change focus on the next professional chances.

Learning from feedback - The best way to learn and improve performance is to ask for feedback from colleagues. Therefore, opinions and criticisms must be heard with the same attention and used constructively to become an even better professional in the future.
