Mode-Locked Semiconductor Lasers Lina Jaurigue, 2017-06-22 This thesis investigates the dynamics of passively mode locked semiconductor lasers with a focus on the influence of optical feedback on the noise characteristics The results presented

here are important for improving the performance of passively mode locked semiconductor lasers and at the same time are relevant for understanding delay systems in general The semi analytic results developed are applicable to a broad range of oscillatory systems with time delayed feedback making the thesis of relevance to various scientific communities Passively mode locked lasers can produce pulse trains and have applications in the contexts of optical clocking microscopy and optical data communication among others Using a system of delay differential equations to model these devices a combination of numerical and semi analytic methods is developed and used to characterize this system [Encyclopedia of Special Functions: The Askey-Bateman Project: Volume 2, Multivariable Special Functions](#) Tom H. Koornwinder, Jasper V. Stokman, 2020-10-15 This is the second of three volumes that form the Encyclopedia of Special Functions an extensive update of the Bateman Manuscript Project Volume 2 covers multivariable special functions When the Bateman project appeared study of these was in an early stage but revolutionary developments began to be made in the 1980s and have continued ever since World renowned experts survey these over the course of 12 chapters each containing an extensive bibliography The reader encounters different perspectives on a wide range of topics from Dunkl theory to Macdonald theory to the various deep generalizations of classical hypergeometric functions to the several variables case including the elliptic level Particular attention is paid to the close relation of the subject with Lie theory geometry mathematical physics and combinatorics

Promoting the Educational Success of Children and Youth Learning English National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Division of Behavioral and Social Sciences and Education, Board on Science Education, Board on Children, Youth, and Families, Committee on Fostering School Success for English Learners: Toward New Directions in Policy, Practice, and Research, 2017-08-25 Educating dual language learners DLLs and English learners ELs effectively is a national challenge with consequences both for individuals and for American society Despite their linguistic cognitive and social potential many ELs who account for more than 9 percent of enrollment in grades K 12 in U S schools are struggling to meet the requirements for academic success and their prospects for success in postsecondary education and in the workforce are jeopardized as a result Promoting the Educational Success of Children and Youth Learning English Promising Futures examines how evidence based on research relevant to the development of DLLs ELs from birth to age 21 can inform education and health policies and related practices that can result in better educational outcomes This report makes recommendations for policy practice and research and data collection focused on addressing the challenges in caring for and educating DLLs ELs from birth to grade 12
