**Commerce and the Commonwealth** Andrew Dilley, 2025-10-07 The history of the Commonwealth of Nations has been subject to limited scholarly enquiry confined to a focus on inter governmental relations and divorced from the lively historiographies on the economics and business of the British Empire Seeking to fill these gaps Commerce and the Commonwealth presents a revisionist history of the intertwined political and economic histories of the British Empire and the Commonwealth of Nations From the 1880s a political and economic configuration within the British empire the Empire Commonwealth played a powerful and distinctive role in the business of empire Incoherently conceived the Empire Commonwealth centred on the UK and old dominions neglecting and marginalizing the remainder of the empire This Empire Commonwealth ultimately gave way to and folded into the post colonial Commonwealth of Nations but continued to play important economic roles until the British Empire s collapse after World War II Eschewing state focused approaches Commerce and the Commonwealth tracks the history of the Empire Commonwealth and Commonwealth of Nations through its business associations and especially chambers of commerce which organized at imperial and then Commonwealth levels from 1886 to 1975 These associations framed by a distinct Empire Commonwealth political culture sought to shape a wide spectrum of economic policy areas Through these associations the book offers a fresh account of the pan imperial debate on imperial preference and explores other areas of imperial political economy including law currency transport and communications emigration defence and taxation It establishes the layered and subtle existence of tangible economic governance notwithstanding the ever closer disunion of the UK and dominions that lay at the Empire Commonwealth s core The result is a wide ranging and revisionist history of an under studied element of the history of the British Empire that will be important reading for all those interested in modern British history economic history the history of empire and the history of the Commonwealth and its legacies

**Forging a British World of Trade** David

Thackeray,2019-01-31 Brexit is likely to lead to the largest shift in Britain s economic orientation in living memory Some have argued that leaving the EU will enable Britain to revive markets in Commonwealth countries with which it has long standing historical ties Their opponents maintain that such claims are based on forms of imperial nostalgia which ignore the often uncomfortable historical trade relations between Britain and these countries as well as the UK s historical role as a global rather than chiefly imperial economy Forging a British World of Trade explores how efforts to promote a British World system centred on promoting trade between Britain and the Dominions grew and declined in influence between the 1880s and 1970s At the beginning of the twentieth century many people from London to Sydney Auckland and Toronto considered themselves to belong to culturally British nations British politicians and business leaders invested significant resources in promoting trade with Australia Canada New Zealand and South Africa out of a perception that these were great markets of the future However ideas about promoting trade between British peoples were racially exclusive From the 1920s onwards colonized and decolonizing populations questioned and challenged the basis of British World networks making use of alternative forms of international collaboration promoted firstly by the League of Nations and then by the United Nations Schemes for imperial collaboration amongst ethnically British peoples were hollowed out by the actions of a variety of political and business leaders across Asia and Africa who reshaped the functions and identity of the Commonwealth

**A Comparative History of Commerce and Industry, Volume II** David E. McNabb,2016-01-26 A Comparative History of Commerce and Industry Volume II offers a subjective review of how the cultural social and economic institutions of commerce and industry evolved in industrialized nations to produce the institution we now know as business enterprise
