

Wave Recognition

A pair of pattern-recognition cards is used orally. The sequence combinations they pass through (vertical and horizontal) are observed. Individual combinations are given. Students produce the corresponding combinations. Make a similar sequence card for horizontal patterns that will produce 1200. Students will then produce the corresponding combinations.

The grid contains 10 rows of wave patterns, each labeled on the left:

- 1000
- 1001
- 1010
- 1011
- 1100
- 1101
- 1110
- 1111
- 1200
- 1201

On the right side of the grid, there is a small diagram of a car with a speech bubble containing the text: "I can drive a car." Below the car is a small circular logo.
