Online Assessment, Measurement, and Evaluation David D. Williams, Mary Hricko, Scott L. Howell, 2006 Online Assessment Measurement and Evaluation Emerging Practices provides a view of the possibilities and challenges facing online educators and evaluators in the 21st Century As technology evolves and online measurement and assessment follow Online Assessment Measurement and Evaluation Emerging Practices uses established evaluation principles to employ new tools in evaluation systems that support stakeholders clarify values and definitions of the evaluation methods encourage thought about important questions and refresh the readers memories of contexts and backgrounds This book also adheres to evaluation standards of feasibility propriety utility and accuracy in order to help participants realize that technical issues and methods are only worthwhile when they are in the service of helping people make thoughtful choices

Effective Teaching Methods Gary D. Borich, 2004 For graduate and undergraduate courses in general K 12 methods The new edition of this popular text clearly achieves its stated goal to prepare prospective teachers to meet the challenges of today s changing classrooms by providing effective practical research based practices in an accessible conversational style Material is based on a quarter century of actual in classroom research that makes it possible to replace anecdotal suggestions for good teaching with solidly research grounded strategies empirically related to positive outcomes The author shows future teachers not only what to do to meet today s teaching challenges but how to do it through the experiences of real teachers in real classrooms

Measurement and Assessment in Education Cecil R. Reynolds, Ronald B. Livingston, Victor L. Willson, 2006 This text employs a somewhat traditional approach to the study of educational tests and measurement so that teachers will understand essential psychometric concepts and be able to apply them in the classroom The principles that guide the development of this text are 1 What essential knowledge and skills do classroom teachers need to conduct student assessments in a professional manner and 2 What does the research on educational assessment tell us This focus has resulted in a uniquely approachable but technically accurate presentation of the material While providing a slightly more technical presentation of the material than more basic texts this text is both approachable and comprehensive The text includes a gentle introduction to the basic mathematics of measurement and expands traditional coverage to include a thorough discussion of performance and portfolio assessments a complete presentation of assessment accommodations for students with disabilities and a practical discussion of professional best practices in educational measurement

Assessing Students with Special Needs John Venn, 2007 Known for its practical applied approach the fourth edition of John Venn s *Assessing Student s with Special Needs* continues to focus on how teachers can use assessment as a guide to instruction This noteworthy revision focuses on what teachers really need to know to include assessment in the curriculum Coverage includes all of the core information expected of an assessment text but the book goes far beyond the basics by addressing

multicultural considerations technology and assessment high stakes testing and the reauthorization of IDEA The book clearly shows how assessment is more than giving a test to a child but is an essential tool for teachers as they help students achieve learn develop and grow

Assessment for Effective Teaching Gerald S. Hanna, Peggy Dettmer, 2004 Written in a straightforward and conversational manner this book integrates assessment and instruction to provide educators with an understanding of when and why to use different assessment techniques to optimize student learning Emphasis is on realistic applications taken from the author's experiences using mainstream assessment principles The subject matter in each chapter is frequently expanded with examples from a broad range of educational settings ranging from classroom teaching to school administration school counseling special education and related special services for students with special needs Features Discussion of individual differences among students helps readers understand the reality of individual differences so as to employ assessment to influence learning for all students Separate chapters on product assessment with rubrics and performance assessment methods present balanced and contemporary treatment of authentic assessment in Chapters 8 and 9 Simple easily managed data sets and computation exercises for developing concepts throughout the text eliminate intricate calculations that often get in the way of important principles An entire chapter 13 on assessment issues in special education helps readers address the thicket of special education issues and mandates in which assessment plays a vital role Learning aids such as Discussion Questions Thinking Cap Exercises and computational problems are embedded throughout the book to provide assistance in identifying key issues checking comprehension and review Instructor's Manual Test Bank developed by the authors is available to adopters Companion website for students and instructors is available at www.ablongman.com/hannadettmer Related Titles Program Evaluation Alternative Approaches and Practical Guidelines 3 e Jody L Fitzpatrick James R Sanders Blaine R Worthen Order No 0 321 07706 7 Designing and Using Tools for Educational Assessment 1 e Madhabi Chatterji Order No 0 205 29928 8 Consultation Collaboration and Teamwork for Students with Special Needs 4 e Peggy Dettmer Norma Dyck Linda P Thurston Order No 0 205 34073 3
