

Operations Management – Case Study Analysis Instructions

General Instructions

Students will prepare a written case study as outlined below.

Methodology

Each student should take the role of a consultant assigned to report on the operations issues to senior management.

In all cases students are expected to research at least 2 peer-reviewed articles (e.g., journal papers) about the topic in discussion to help support their analysis. Wikipedia, blogs and other unreliable web resources will **not** be accepted.

Written Presentation (15% out of 100% of the overall course weighted grade)

Students will prepare a written case analysis presentation, which must be submitted, to the instructor.

The text should be double spaced and should be done in a professional manner. You should include copies of all tables, diagrams, etc. used in your presentation. The cover sheet should include the student name. The student will submit one copy of his/her analysis to the instructor via the BrightSpace "Assignment Section" of the course shell, labeled "Case Study – Individual." The due date submission of this assignment is noted in the BrightSpace "Assignment Section" of the course shell.

There is not a firm guideline of the report content. However, it is important that the following information be present.

1. **Cover page** – with the usual information - student information, title, subtitle, course, and section names and numbers.
2. **Executive summary** – the report is addressed to senior management of the company in question. The executive summary should include a general summary of the case, the conclusion, and recommendation.
3. **Table of contents**
4. **Content**
This is dependent upon what type of project is, e.g. whether it is research-oriented, or practical problem-solving.
5. **Appendix**

Urban Governance
Jiuping Xu, Yi Lu, Asaf Hajiyev, Zongmin Li, 2025-06-27
This book offers a comprehensive exploration of the latest advancements in sustainable and resilient supply chain management. The chapters in this volume present a diverse range of topics including innovative strategies for optimizing sustainable food supply chains through data envelopment analysis, dynamic multi-modal perspectives on global supply chain network configuration, and robust data-driven optimization techniques for designing sustainable cold supply chains for livestock and perishable goods. Other chapters delve into key areas such as optimal pricing and production lot size strategies for sustainable inventory models, carbon-sensitive transport solutions for deteriorating supply chains, and trade credit policies in growing product supply chains. Additionally, the book addresses the complexities of inventory management, purchasing and cutting policies for imperfect and perishable raw materials, the influence of supply chain finance and trade digitization on financial stability, and the development of heuristic master planning algorithms that prioritize fairness and flexibility. Further studies examine adaptive product changeover policies, a PDCA-based approach to evaluating green supply chain performance, and robust multi-criteria decision analysis techniques for selecting transportation service providers in the face of uncertainty. By offering insights into both theoretical and practical aspects, this book provides a valuable resource for researchers, practitioners, and policymakers looking to navigate the evolving landscape of sustainable

supply chains This book will be valuable to students researchers and policymakers in the fields of supply chain management sustainable logistics and operations research The chapters in this book were originally published in International Journal of Management Science and Engineering Management *Network World* ,1993-12-13 For more than 20 years Network World has been the premier provider of information intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations Readers are responsible for designing implementing and managing the voice data and video systems their companies use to support everything from business critical applications to employee collaboration and electronic commerce **Scientific American** ,1963 Monthly magazine devoted to topics of general scientific interest **Network World** ,1993-08-23 For more than 20 years Network World has been the premier provider of information intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations Readers are responsible for designing implementing and managing the voice data and video systems their companies use to support everything from business critical applications to employee collaboration and electronic commerce **Pollution Abstracts** ,1980 **Government Reports Announcements & Index** ,1991 **Forthcoming Books** Rose Army,2002 **Network World** ,1993-09-06 For more than 20 years Network World has been the premier provider of information intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations Readers are responsible for designing implementing and managing the voice data and video systems their companies use to support everything from business critical applications to employee collaboration and electronic commerce **INFORMS Annual Meeting** Institute for Operations Research and the Management Sciences.
