Practical Contract Management Ray Carter, Steve Kirby, Alan Oxenbury, 2012 Ten Commandments of Better Contracting Francis T. Hartman, 2003-01-01 Ten Commandments of Better Contracting provides a fresh look at management of supply chains with a particular focus on contracting for construction and related goods and services With the objective of getting more out of contracts this book draws on recent research extensive professional and practical experience and even trial and error in testing contracting innovations The book explores issues such as games played proven solutions to common problems the importance of business relationships trust and other issues not typically addressed in books on this topic In readable style every chapter focuses on real world problems and offers suggestions that help improve the performance of next and future contracts The book outlines ten basic rules commandments for improving contract performance The author illustrates these different techniques with cartoons icons and case studies Each of the first 10 chapters addresses one of these commandments The closing chapter presents a successful contracting strategy that applies these commandments in a cohesive approach This proven strategy has yielded better results than industry norms when intelligently applied Chapter 1 provides an overview of the contracting environment including basic legal principles Chapters 2 and 3 address contract strategies Chapters 4 through 7 focus on contract award Chapters 8 and 9 address contract administration issues and Chapter 10 focuses on dispute resolution *Contract Administration Pitfalls and Solutions for Architect-Engineering Projects* Bob Jack, 2015-06-05 The basic building block of all architect engineering firms is the client funded individual project These firms of all sizes and complexities have one thing in common they all operate under the authority of contracts that must be successfully executed to ensure overall success and continuity of the firm Without that success the firm goes out of business It therefore holds true that the degree to which these contracts are successfully managed determines the degree of

success or failure of the enterprise This journal therefore is dedicated to the business process we refer to as contract administration or the combined acts of the firms staff to ensure that all elements desired by the client are formulated into a relationship that is reduced to writing known as the written contract and then successfully executed by the firm Whether the company is comprised of one hundred employees or ten thousand these contracts must be administered for success within budget and within schedule and meet the changing dynamics of the projects requirements over time Effective contract administration is essentially a sound communications process that guarantees that fundamental information in the contract relationship is disseminated to the project and support personnel who are expected to perform the contracts requirements This journal describes those tasks that must be executed to ensure that contract administration is a successful outcome and that all the players on the company team execute their individual tasks professionally repetitiously and successfully
