A Philosophical Journey Through a Concept

Event Slavoj Žižek:

Event Slavoj Žižek, 2014-08-26 One of the most famous living philosophers provides a philosophical analysis of the meaning of events in this deeply interesting and provocative book. The Guardian: An event can be an occurrence that shatters ordinary life, a radical political rupture, a transformation of reality, a religious belief, the rise of a new art form, or an intense experience such as falling in love. Taking us on a trip that stops at different definitions of event, Žižek addresses fundamental questions such as: Are all things connected? How much are we agents of our own fates? Which conditions must be met for us to perceive something as really existing? In a world that's constantly changing, is anything new really happening? Drawing on references from Plato to arthouse cinema, the Big Bang to Buddhism, *Event* is a journey into philosophy at its most exciting and elementary.

Event Slavoj Žižek, 2014-01-30 Probably the most famous living philosopher, Slavoj Žižek explores the concept of event in the second in this new series of easily digestible philosophy. Agatha Christie's *4 50 from Paddington* opens on a train from Scotland to London where Elspeth McGillicuddy, on a way to visit her old friend Jane Marple, sees a woman strangled in a compartment of a passing train, the *4 50 from Paddington*. It all happens very fast and in a blurred vision so the police don't take Elspeth's report seriously as there is no evidence of wrongdoing; only Miss Marple believes her story and starts to investigate. This is an event at its purest and minimal: something shocking that happens all of a sudden and interrupts the usual flow of things, something that appears out of nowhere without discernible causes and whose ontological status is unclear: an appearance without solid being as its foundation. In Christie's novel, the role of Miss Marple is precisely to de-eventalize the event, to explain it away as an occurrence which fits the coordinates of our normal reality. A subject for which there is not yet an agreed-upon definition within philosophy, Slavoj Žižek explores the terrain of this contestable term in a series of short chapters that examine everything from the event as political revolution and the rise of a new art form to the event as religious belief and falling in love. *Event* is a mind-blowing, thrilling, accessible book from arguably our greatest living cultural theorist and philosopher. Slavoj Žižek is a Slovenian philosopher and cultural critic. The author of many books, he has made contributions to political theory, film theory, and theoretical psychoanalysis.
