**Introduction to Hadith** 'Abd al-Hadi al-Fadli, Al-Shahid al-Thani, 2011-01-01. Although Hadith science can often seem inscrutable, understanding Hadith science is crucial to understanding the foundations of Islamic theology, sharia, and Islamic thought. This book outlines the history, development, and current practice of Hadith science, with special attention to Shi'a scholarship. *Introduction to Hadith* covers hadith terminology, sources of hadith, chains of narration, categories of hadith, the criteria for hadith narrators, and transmission of hadith. Additionally, it includes a translation of a seminal work on Hadith studies, *Dirayat al-Hadith* by the renowned sixteenth-century Shi'a scholar al-Shahid al-Thani, the work that paved the way for the modern Shi'a study of Hadith. For the past decade, *Introduction to Hadith* has been designated as a textbook in Islamic studies courses worldwide. This is an essential read for anyone seeking to learn more about hadith, analysis, Islamic law, Islamic history, or the Islamic scholarly heritage. Second edition.

*An Introduction to Hadith* Ali Nasiri, 2012. As the second main source of the true religion of Islam, hadith has a history full of ups and downs, as far as the manner of its transmittal and the periods of its compilation and publication are concerned. Those who are acquainted with Islamic history have all acknowledged that from the time of transmittal up to now, hadith has been associated with many desirable as well as undesirable events, and its compilation and publication in some periods have had both faithful advocates and stern adversaries. For this reason, learning the history of hadith, though a piece of knowledge outside the different branches of the science of hadith, is essential for all those who want to benefit from the Sunnah and the corpus of hadith, especially in view of the fact that the beginning of hadith compilation and its mechanism have not been the same for the proponents of the various Islamic schools of thought, each of them having a different opinion whose outcome may adversely affect the credibility and status of the existing traditions. The present book, which has been written as a textbook in the tertiary level of Islamic studies, endeavors to present the general subjects relevant to hadith and its history, as well as to acquaint the students of this field with the Sunni hadith collections and the Four Books (*Kutub al-Arba'ah*) of the Shi'ah in a simple and easy-to-understand approach.

*An Introduction to the Science of the Ḥadīth* 'Uthmān ibn 'Abd al-Raḥmān Ibn al-Ṣalāḥ al-Shahrazūri, 2005. After the Qur'an itself, the hadith of the Prophet Muhammad form the most important foundation of Islamic thought. The hadith were accounts, usually brief, of the words and actions of the Prophet. As such, they were subjected to intense scrutiny by generations of Muslim scholars. Better known as the *Muqaddima*, Ibn al-Salah (1181-1245) composed this work while serving as the head of the *Dar al-Hadith al-Ashrafiya* in

Damascus one of the most prestigious institutions for the study of hadith in the Islamic world He provides a complete overview of the science devoted to the study of the words and actions of the Prophet Muhammad His book is also a guide to the terminology and techniques of the scholars of hadith as it summarizes most of the previous work on the subject and forms the basis of almost all later activity in the field The book translated here enjoyed immense popularity and influenced most subsequent writing on the subject
