**Archives** Edwin C. May,Sonali Bhatt Marwaha,2018-10-23 Star Gate is the largest funded program in the history of psi  
research receiving about 19 933 million in funding from 1972 to 1995 Researchers from SRI International and later at  
Science Applications International Corporation in association with various U S intelligence agencies participated in this  
program Using the remote viewing method research focused on understanding the applicability and nature of psi in general  
but mostly upon informational psi Volume 1 Remote Viewing 1972 1984 and Volume 2 Remote Viewing 1985 1995 include all  
aspects of RV including laboratory trials and several operational results Volume 3 focuses on laboratory investigations on  
psychokinesis Volume 4 Operational Remote Viewing Government Memorandums and Reports includes an analysis of the  
applied remote viewing program and a selection of documents that provide a narrative on the behind the scenes activities of  
Star Gate In a total of 504 separate missions from 1972 to 1995 remote viewing produced actionable intelligence prompting  
89% of the customers to return with additional missions The Star Gate data indicate that informational psi is a scientifically  
valid phenomenon These data have led to the development of a physics and neuroscience based testable model for the  
underlying mechanism which considers informational psi as a normal albeit atypical phenomenon The Star Gate data found  
insufficient evidence to support the causal psi psychokinesis hypothesis     *Engineering Drawing (Plane and Solid Gemoetry)*
