CBSE NIOS ISC UP Board 12th Class Chemistry Chapter wise Unsolved Papers 464 895 E This book contains the previous
year paper from 2010 to 2024 **Administration of Education Boards in India** Om Parkash Sharma,1991 Indian
National Bibliography Bellary Shamanna Kesavan,1985 Smart Leading and Parenting of Teenage Kids in the Digital Era
Dr. Siddhartha Ganguli,2021-02-10 The physical features of teenage kids change to catch up with their brain circuits ready to
take on the pre historic hunter gatherer roles The goal resource mobilisation for survival Resource mobilisation would not
only help them survive but also to earn them invisible rewards by way of positive brain chemicals and electricity However the
post industrialisation scenario has been quite different Teenagers get groomed via skill or academic development to take on
economic roles latest by their mid twenties Such grooming strategy does not always lead to the invisible rewards which they
would have earned had they been playing their pre historic hunter gatherer roles Most interestingly today s versatile digital
gadgets offer ample scope for earning brain rewards at the cost of sedentary lifestyles The prevailing work and study from
home culture has prompted the teenagers becoming dependent on digital technology and getting addicted to the gadgets for
earning rewards There is thus a new need for the parents of today s teenagers They must smartly lead themselves and their
kids so that digital technology is utilised for their healthy all round development thus preventing any possibility of addiction
Divided into two parts the Part 1 of this book throws light on the realities combined with tips and Part 2 introduces the new
concept of Brain Tools for the use of the kids and the parents based on the author s ongoing research on Neuro management
