

CASE STUDY: CISCO

Helping Cisco understand the U.S. Social Incubation landscape

In 2015, UBI Global developed a social benchmark in partnership with Cisco Corporate Affairs. The main goal of this benchmark was to better understand and measure the success of social incubators using over 40 key performance indicators (KPIs) to evaluate success factors such as the value generated for the participating startups as well as the economic and social impact.

PROJECT NEEDS

Cisco Corporate Affairs is committed to creating long-term impact globally. Part of that endeavor revolves around entrepreneurship support, skill development and job creation. As the number of social incubation programs increased in the global incubation sector, Cisco recognized the need to help programs improve and help others start. With that in mind, Cisco reached out to UBI Global, a thought leader in performance analysis of business incubation around the world, with these 3 aims specifically for the US:

- 1 MAP THE SOCIAL INCUBATION ECOSYSTEMS IN THE U.S.** – UBI Global would present a social incubation landscape: number of social incubators in the U.S., their focus and structure
- 2 IDENTIFY THE TOP PERFORMING SOCIAL INCUBATORS** – UBI Global would analyze data collected from key social incubators and assess their performance to identify the top social incubators
- 3 HIGHLIGHT THE TOP SOCIAL INCUBATORS AND THEIR BEST PRACTICES.** – Highlight the top incubators at the Social Capital Markets Conference 2015 and share their best practices & knowledge

WHY BENCHMARK?

UBI Global is thought leader in performance analysis of business incubation around the world. We help business incubators and business accelerators become more efficient and competitive through a comprehensive benchmark

Benchmarking can help understand best practices across social incubators and, in turn, incite them to improve and create more jobs. Establishing a benchmark also enables the surfacing and sharing of data-driven best practices in order to catalyze a network of incubators for social innovation.

Cisco It Case Study:

The Digital Renaissance of Work Ms Elizabeth Marsh, Mr Paul Miller, 2014-10-28 The Digital Renaissance of Work Delivering Digital Workplaces Fit for the Future takes the reader on a journey into the emerging technology led revival of work Paul Miller's follow up to his critically acclaimed *The Digital Workplace* picks up the story to provide organizations with an understanding of the structural and organizational implications the emerging technology has for the workplace His insights backed by the considerable research of the Digital Workplace Forum offer a lifeline to organizations needing to make better sense of a very uncertain future

Infrastructure and Technology Management Tugrul U. Daim, Leong Chan, Judith Estep, 2018-01-10 This book presents emerging technology management approaches and applied cases from leading infrastructure sectors such as energy healthcare transportation and education Featuring timely topics such as fracking technology electric cars Google's eco friendly mobile technology and Amazon Prime Air the volume's contributions explore the current management challenges that have resulted from the development of new technologies and present tools applications and frameworks that can be utilized to overcome these challenges Emerging technologies make us rethink how our infrastructure will look in the future Solar and wind generation for example have already changed the dynamics of the power sector While they have helped to reduce the use of fossil fuels they have created management complications due to their intermittent natures Meanwhile information technologies have changed how we manage healthcare making it safer and more accessible but not without implications for cost and administration Autonomous cars are around the corner On line education is no longer a myth but still a largely unfulfilled opportunity Digitization of car ownership is achievable thanks to emerging business models leveraging new communication technologies The major challenge is how to evaluate the relative costs and benefits of these technologies This book offers insights from both researchers and industry practitioners to address this challenge and anticipate the impact of new technologies on infrastructure now and in the future

[Evaluating Training Programs](#) Donald Kirkpatrick, James Kirkpatrick, 2006-01-01 An updated edition of the bestselling classic Donald Kirkpatrick is a true legend in the training field he is a past president of ASTD a member of Training magazine's HRD Hall of Fame and the recipient of the 2003 Lifetime Achievement Award in Workplace Learning and Performance from ASTD In 1959 Donald Kirkpatrick developed a four level model for evaluating training programs Since then the Kirkpatrick Model has become the most widely used approach to training evaluation in the corporate government and academic worlds *Evaluating Training Programs* provided the first comprehensive guide to Kirkpatrick's Four Level Model along with detailed case studies of how the model is being used successfully in a wide range of programs and institutions This new edition includes revisions and updates of the existing material plus new case studies that show the four level model in action Going beyond just using simple reaction questionnaires to rate training programs Kirkpatrick's model focuses on four areas for a more comprehensive approach to evaluation Evaluating Reaction Evaluating Learning Evaluating Behavior and Evaluating Results Evaluating

Training Programs is a how to book designed for practitioners in the training field who plan implement and evaluate training programs The author supplements principles and guidelines with numerous sample survey forms for each step of the process For those who have planned and conducted many programs as well as those who are new to the training and development field this book is a handy reference guide that provides a practical and proven model for increasing training effectiveness through evaluation In the third edition of this classic bestseller Kirkpatrick offers new forms and procedures for evaluating at all levels and several additional chapters about using balanced scorecards and Managing Change Effectively He also includes twelve new case studies from organizations that have been evaluated using one or more of the four levels Caterpillar Defense Acquisition University Microsoft IBM Toyota Nextel The Regence Group Denison University and Pollack Learning Alliance

Designing Cisco Networks Diane Teare,1999 Designing Cisco Networks is an in depth and direct extension of the DCN course sold through Cisco Systems The DCN course is recommended training for CCDA and CCDP certification candidates This resource serves as a supplement for those who have purchased or will purchase the course materials and as a replacement for networking professionals who choose not to purchase the course

Handbook of Research on Big Data Storage and Visualization Techniques Segall, Richard S.,Cook, Jeffrey S.,2018-01-05 The digital age has presented an exponential growth in the amount of data available to individuals looking to draw conclusions based on given or collected information across industries Challenges associated with the analysis security sharing storage and visualization of large and complex data sets continue to plague data scientists and analysts alike as traditional data processing applications struggle to adequately manage big data The Handbook of Research on Big Data Storage and Visualization Techniques is a critical scholarly resource that explores big data analytics and technologies and their role in developing a broad understanding of issues pertaining to the use of big data in multidisciplinary fields Featuring coverage on a broad range of topics such as architecture patterns programming systems and computational energy this publication is geared towards professionals researchers and students seeking current research and application topics on the subject

Transport Challenges in Latin American Cities José Manuel Vassallo,Paola Carolina Bueno,2019-02-13 Most cities of the Latin America and the Caribbean region face similar problems including low quality public transport supply lack of planning congestion and both atmospheric and noise pollution As a response to these growing concerns many governments are implementing actions aimed at encouraging the use of more sustainable transport modes and reducing transport dependence on the private car Despite the advances gained through the implementation of these and other policies in LAC there is still a long way to go especially in the promotion of seamless transport systems at the city level the achievement of financial sustainability as well as the improvement of urban air quality This study identifies a number of best practices for overcoming or working around these challenges
