

APA Format–6th Edition

OVERVIEW–The American Psychological Association (APA) style is widely accepted in the social sciences and other fields, such as education, business, and nursing. The APA citation format requires parenthetical citations within the text rather than endnotes or footnotes. Citations in the text provide brief information, usually the name of the author and the date of publication, to lead the reader to the source of information in the reference list at the end of the paper.

NOTE: Although the examples in this guide are shown in single space, APA style requires double spacing throughout (e.g. text, references, etc.)

APA RULES FOR THE REFERENCES PAGE – The following sections show some of the more commonly used APA citation rules.

NOTE: All citations must be in the Hanging Indent Format with the first line flush to the left margin and all other lines indented.

Wardrope, 2005 *Some Aspects of ICT Uses in the Teaching of EFL at the Tertiary Level in Yemen* Abdu Al-Kadi, 2017-10-17 Doctoral Thesis Dissertation from the year 2017 in the subject Speech Science Linguistics University of Carthage ISLT course English studies language English abstract This dissertation intended to elucidate through a mixed method research design how the university EFL learners and teachers utilize available ICT tools, applications, and to measure the impacts of this usage on the learners' proficiency and academic achievements. Data were collected in three phases: surveys, tests, and observations. The sample consisted of 428 senior students, 40 EFL teachers, and 10 head teachers recruited from five public universities in Yemen. Of this initial cohort, 131 students were singled out for performance analysis. Again, within this subsample, 20 informants were kept under observation. Two types of data, quantitative and qualitative, were collected. The quantitative data were analyzed by applying appropriate descriptive and inferential statistics by using SPSS. Qualitative data were analyzed subjectively, establishing patterns and categories. Results indicated that most of the ICTs were used on an ad hoc basis. While there were no statistically significant impacts of using ICT on the learners' performance, the respondents hold the view that such appliances offer some opportunities for engagement, interactivity, and motivation to learn English formally and informally. The findings brought to the foreground some pedagogic and linguistic implications and useful points for further research. *The Scott Foresman Handbook* Maxine Hairston, 1998-08
