Dayton,2016-01-19 There are many books written about making acoustic and electric guitars Some bridge the subject of making an archtop but none that a layman could easily use This book attempts to close the gap Including as many photographs as possible every attempt was made to call out potential pitfalls that a first time builder is likely to encounter The book is laid out with a work instruction mentality and is not intended to be a book to sit down by the fire with unless in an act of frustration you want to burn it Much of the work required is work that you can do at the kitchen table with paper pencil ruler etc For instance you can draw the body shape layout the neck do all your fret calculations sketch plans for the various jigs and work out your budget The guitar cost less than 200 in parts including wood tuning machines etc The costs associated with the woodworking tools depends on what you already possess what you are willing to invest in and how friendly you are with a neighbor who may be interested in an exchange of borrowed tool time for steaks on the grill some weekend There is something about working with wood that is

inspirational Maybe it is the smell of the freshly cut wood the mystery of what the grain will look like when the finish is applied or the simplicity with which something incredibly beautiful may be made This book will not answer every question but will inspire you to experiment will bring out your artistic side while you make an instrument unlike any other *Making an Archtop Guitar* Robert Benedetto,2018-02 Book The definitive work on the design and construction of an acoustic archtop guitar this updated second edition features 288 pages of content including 24 color pages and 4 tear outs See what industry greats have said about this book I know of no other work offering comprehensive step by step coverage of the making of an acoustic jazz guitar George Gruhn This book is for everyone who loves woodworking loves guitars appreciates artistry and believes that organic materials like spruce maple and ebony can only achieve their highest function through the hands of a craftsman Howard Paul I can think of no one more knowledgeable and qualified to share his years of expertise than master luthier Robert Benedetto Dick Boak **Archtop Guitars** Rudy Pensa,2011-01 *The Creation of the Natura Elite Archtop Guitar* Tom Bills,2011-04-20 *Build your own acoustic guitar* Jonathan Kinkead,2004-10
