

MARK SCHEME for the June 2005 question paper

9708 ECONOMICS

9708/02

Paper 2 Data Response and Essay (Core), maximum raw mark 40

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which Examiners were initially instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began. Any substantial changes to the mark scheme that arose from these discussions will be recorded in the published *Report on the Examination*.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the *Report on the Examination*.

- CIE will not enter into discussion or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the June 2005 question papers for most IGCSE and GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

The Routledge Handbook of Transport Economics Jonathan Cowie, Stephen Ison, 2017-08-07 The Routledge Handbook of Transport Economics offers the first state of the art overview of the discipline of transport economics as it stands today reflective of key research and policy Transport is an important area of study and one which is problem rich stimulating a great deal of debate in areas which impact on everyday lives Much of this focuses on the practicalities of the modern day phenomenon of mass movement and all of the issues which surround it The discipline of economics is central to this debate and consequently the study and application of transport economics has a chief role to play in seeking to address subjects relating to major transport issues It can be argued that at the very heart of any transport issue or problem lies the underlying economics of the situation understand that and you alleviate the problem Featuring contributions from world leading scholars and practitioners from across the globe all of the chapters within this book are written from a practical perspective theory is applied and developed using real world examples The book examines concepts issues ideas and practicalities of transport provision in five key topic areas public transport public transport reform economic development and transport modelling transport and the environment freight transport A real strength of the book is in linking theory to practice and hence the economics that are examined in this text are not the economics of the abstract but rather the economics of everyday living Practical and insightful this volume is an essential reference for any student or researcher working in all areas of transport provision ranging from planning appraisal regulation and freight and for all practitioners looking to develop their professional knowledge and who are seeking professional accreditation Regulating and Combating Money Laundering and Terrorist Financing Nkechikwu Azinge-Egbiri, 2021-03-01 This book analytically reviews the impact of the global anti money laundering and counter terrorist financing AML CFT framework on the compliance trajectory of a number of jurisdictions to this framework The work begins by examining the international financial sector reform and its evolution to inculcate the global framework for AML CFT regulations It challenges the resulting uniform AML

CFT due to its paradoxical impact on the compliance trajectory of African countries and emerging economies ACs EEs This is done through an examination of the pre conditions for effective regulation and compliance drivers for ACs EEs that reveals the behavioural impact of the AML CFT standards on the bloc of countries Through the application of agency theory it explores the relationship between ACs EEs on the one hand and the international financial institutions that formulate disseminate and facilitate compliance with the global framework for AML CFT standards on the other The remaining chapters review empirically the compliance pressures and resulting compliance trajectory of ACs EEs with the AML CFT standards The final part of the book provides a detailed explanation of the compliance challenges of ACs EEs and the legitimacy concerns that facilitate this This book offers a new direction on the impact of global AML CFT standards on ACs EEs and contributes to the understanding of the conditions under which the global standards are likely to facilitate proactive compliance within these blocs of countries As such it will be a valuable resource for academics researchers and policy makers working in this area

Rethinking the Economics of Land and Housing Josh Ryan-Collins,Toby Lloyd,Laurie Macfarlane,2017-02-28 Why are house prices in many advanced economies rising faster than incomes Why isn t land and location taught or seen as important in modern economics What is the relationship between the financial system and land In this accessible but provocative guide to the economics of land and housing the authors reveal how many of the key challenges facing modern economies including housing crises financial instability and growing inequalities are intimately tied to the land economy Looking at the ways in which discussions of land have been routinely excluded from both housing policy and economic theory the authors show that in order to tackle these increasingly pressing issues a major rethink by both politicians and economists is required
