Singapore, Spirituality, and the Space of the State Joanne Punzo

Waghorne,2020-03-19 This book examines spirituality in Singapore showing how important the city state is for understanding contemporary global configurations of urban space religion and spirituality Joanne Punzo Waghorne highlights how the formal religious spaces temples churches and mosques have been confined to allotted sites on the map of Singapore whereas various spiritual organizations particularly of Hindu origins and headed by a guru still continue to operate as societies classified by the government with other clubs These unconventional religiosities are not confined but ironically make their own places meeting in ostensive secular venues high rise flats malls businesses and community centers thus existing in the overall space of religion commerce and the state The book argues that State of Singapore also operates between the secular and the religious constructing an overarching spatial regime that both accommodates and yet rivals the alternate spheres that spiritual movements construct under its umbrella Both spatial configurations challenge the presumed relationships between myth and reality religion and commerce the ethereal and the concrete the sacred and the secular on the levels of self community and polity Singapore now deemed a model for urban development in Asia also offers an understanding of a new post secularity and perhaps reveals where the urbanized world is headed

Autonomous Nature Carolyn

Merchant,2015-08-27 Autonomous Nature investigates the history of nature as an active often unruly force in tension with nature as a rational logical order from ancient times to the Scientific Revolution of the seventeenth century Along with subsequent advances in mechanics hydrodynamics thermodynamics and electromagnetism nature came to be perceived as an orderly rational physical world that could be engineered controlled and managed Autonomous Nature focuses on the history of unpredictability why it was a problem for the ancient world through the Scientific Revolution and why it is a problem for today The work is set in the context of vignettes about unpredictable events such as the eruption of Mt Vesuvius the Bubonic Plague the Lisbon Earthquake and efforts to understand and predict the weather and natural disasters This book is an ideal text for courses on the environment environmental history history of science or the philosophy of science
