## Investing and Financing Decisions and the Accounting System

### ANSWERS TO QUESTIONS

1. The primary objective of financial reporting for external users is to provide financial information about the reporting entity that is useful to existing and potential investors, lenders, and other creditors in making decisions about providing resources to the entity. These users are expected to have a reasonable understanding of accounting concepts and procedures. Usually, they are interested in information to assist them in projecting future cash inflows and outflows of a business.
  
2.
  - (a) An asset is a probable future economic benefit owned or controlled by the entity as a result of past transactions.
  
  - (b) A current asset is an asset that will be used or turned into cash within one year; inventory is always considered a current asset regardless of how long it takes to produce and sell the inventory.
  
  - (c) A liability is a probable future sacrifice of economic benefits of the entity arising from present obligations as a result of a past transaction.
  
  - (d) A current liability is a liability that will be settled by providing cash, goods, or other services within the coming year.
  
  - (e) Additional paid-in capital is the owner-provided financing to the business that represents the excess of the amount received when the common stock was issued over the par value of the common stock.
  
  - (f) Retained earnings are the cumulative earnings of a company that are not distributed to the owners and are reinvested in the business.
