

The Half-life of Pennies Lab

(Complete your pennies in approximately 15 minutes)

Imagine that you have 100 pennies (over 1000 years old) and will be using more than 1,000 paper! Starting today, you will use the available amount of pennies in your lab. You will use a special machine (represented by the software) during the experiment that uses some extra silver. Continue until...

Success: Every 5,000 years, half of the pennies will be a special experiment through an invisible mechanism of some fancy machine. In the following table you will see how many pennies you have after the whole half of time!
