Handling Qualitative Data A Practical :

Handling Qualitative Data Lyn Richards,2014-11-30 The Third Edition of Lyn Richards best selling book is the perfect introduction to qualitative research for students and practitioners Recognizing that for many new researchers dealing with data is the main point of departure this book helps them to acquire an understanding of the skills and methodological issues that are central to qualitative research Author Lyn Richards provides practical guidance on how to handle reflect on and make sense of rich data while at the same time showing how a consideration of methods and their philosophical underpinnings informs how we should best handle our data Detailed sections cover the processes of making meeting sorting coding documenting and exploring qualitative data how to see a study as a whole and write it and making and justifying claims Each chapter smoothly integrates software use with discussion of the main challenges that software users are likely to encounter Novice researchers who use this book will be able to achieve valid and useful outcomes from qualitative analysis and ensure they do justice to their data

Handling Qualitative Data Lyn Richards,2005-04-09 I was really floundering until I found *Handling Qualitative Data* which is a great practical guide and I hope it will gain much more recognition so that people in my position will know it is the first place to go for help in a qualitative project A great book Steve Lowman Rural Researcher Aberystwyth University At the end of each chapter the author maps out the pragmatic steps required to progress a qualitative research study and the associated analysis of data This is accompanied by experiential exercises suggested further reading and links to the online tutorial on www.sagepub.co.uk/richards This latter dimension provides an exciting and innovative aspect to the text and the opportunity for readers to gain something beyond the expected theoretical perspectives In summary an excellent book Nurse Researcher *Handling Qualitative Data* introduces students and practitioners to qualitative research in a uniquely practical manner Firstly it recognizes that for many novice researchers data rather than methods and their philosophical underpinnings are the point of departure Secondly it advocates a progressive accumulation of skills and understanding of methodological issues as they are needed This enables the student to perform efficaciously from the start by immediately being in a position to handle reflect on and get results from small amounts of data giving them a launch pad to more complex endeavours The book provides pragmatic informal and succinct assistance in the processes of meeting sorting coding documenting and exploring unstructured records It smoothly integrates software use into data handling as and when it is necessary with discussion of challenges It guides the reader to debates about the nature and interpretation of such data and the goals of valid and useful outcomes from qualitative analysis This text will assist novice researchers to do justice to such data whatever their background or opportunities for further methods training For those who wish to work with the QSR NVivo software on the issues and techniques in the book s chapters resource pages featuring tutorials covering each chapter are available by clicking on the companion website logo above

Building a Technology Inclusive Agency James H. Edwards, 2009 The development of low cost and practical information and communication technologies ict has led to increased pressure on social workers and other human service providers to insure their clients are not digitally disenfranchised In fact the National Association of Social Workers nasw and Association of Social Work Boards aswb Standards for Technology and Social Work Practice require social work practitioners to insure their own access to technology as well as insuring access to technology on behalf of their clients The first step in carrying out this mandate is to understand how why and for what purpose clients use ict Secondly we must understand the role that human service agencies can play in insuring their clients are not digitally disenfranchised To this end the qualitative study presented here is comprised of two components first an exploratory study examining how women in recovery from chemical addiction view use and envision their use of technology and second an evaluative component examining an effort by their provider agency to promote digital empowerment through the use of computer access and training The findings suggest the participants were empowered through increased access to technology and increased computer skills The agency struggled to maintain an adequate technology infrastructure for the participants but found the intervention to be beneficial and consistent with its overall mission of empowerment In general the participants expressed an increased frequency of computer use outside of the training as well as increased confidence in their ability to use a computer The participants

expressed feelings of joy excitement pride and an overall sense of empowerment as a result of the computer training experience This was evident by the perfect attendance at the trainings and confirmed in the statements by the executive director The dissertation citations contained here are published with the permission of ProQuest llc Further reproduction is prohibited without permission Copies of dissertations may be obtained by Telephone 800 1 800 521 0600 Web page <http://www.proquest.com/en/US/products/dissertations/individuals.shtml>
