Obatolu,2021 Non-Invasive Data Governance Robert S. Seiner,2014-09-01 Data governance programs focus on authority and accountability for the management of data as a valued organizational asset Data Governance should not be about command and control yet at times could become invasive or threatening to the work people and culture of an organization Non Invasive Data Governance focuses on formalizing existing accountability for the management of data and improving formal communications protection and quality efforts through effective stewarding of data resources Non Invasive Data Governance will provide you with a complete set of tools to help you deliver a successful data governance program Learn how Steward responsibilities can be identified and recognized formalized and engaged according to their existing responsibility rather than being assigned or handed to people as more work Governance of information can be applied to existing policies standard operating procedures practices and methodologies rather than being introduced or emphasized as new processes or methods Governance of information can support all data integration risk management business intelligence and master data management activities rather than imposing inconsistent rigor to these initiatives A practical and non

threatening approach can be applied to governing information and promoting stewardship of data as a cross organization asset Best practices and key concepts of this non threatening approach can be communicated effectively to leverage strengths and address opportunities to improve
