

KATE L. TURABIAN 8th Edition

A Manual for Writers of Research Papers, Theses, and Dissertations

Turabian Quick Guide

Kate L. Turabian's *Manual for Writers of Research Papers, Theses, and Dissertations* presents two basic documentation systems: notes-bibliography style (or simply bibliography style) and author-date style (sometimes called reference list style). These styles are essentially the same as those presented in *The Chicago Manual of Style*, sixteenth edition, with slight modifications for the needs of student writers.

Bibliography style is used widely in literature, history, and the arts. This style presents bibliographic information in footnotes or endnotes and, usually, a bibliography.

The more concise author-date style has long been used in the physical, natural, and social sciences. In this system, sources are briefly cited in parentheses in the text by author's last name and date of publication. The parenthetical citations are amplified in a list of references, where full bibliographic information is provided.

Aside from the use of notes versus parenthetical references in the text, the two systems share a similar style. Click on the tabs below to see some common examples of materials cited in each style. For a more detailed description of the styles and numerous specific examples, see chapters 16 and 17 of the 8th edition of Turabian for bibliography style and chapters 18 and 19 for author-date style. If you are uncertain which style to use in a paper, consult your instructor.

- [AUTHOR-DATE](#)

Notes-Bibliography Style: Sample Citations

The following examples illustrate citations using notes-bibliography style. Examples of notes are followed by shortened versions of citations to the same source. For more details and many more examples, see chapters 16 and 17 of Turabian. For examples of the same citations using the author-date system, click on the Author-Date tab above.
