future success but *Communicating Globally* comes awfully close. By combining an astute knowledge of the global marketplace, emerging trends and technologies and good old common sense, Don Schultz and Philip Kitchen illuminate the path for successful brand building in the 21st century. Ed Faruolo, vice president corporate marketing communications, CIGNA Corporation, says Don Schultz has done it again. His unique and highly readable approach is a must for companies looking to market globally in the new century. *Communicating Globally* offers an important road map through the maze of global marketing communications. James R. Gregory, CEO Corporate Branding LLC, says this book is important because it brings the concept of integrated marketing communications (IMC) into full international focus for the first time. This focus is maintained throughout the whole structure and it makes the book a truly conceptual work. The case studies that illustrate the practical ramifications of international IMC yield significant general as well as specific lessons. John Philip Jones, Syracuse University, says the 1990s introduced integrated marketing understanding and communicating relevantly with customers by using information. *Communicating Globally* now takes the same principles and adapts them to today's dynamic global marketplace. Even better, it is written in a style that makes it easy for a non-marketer to fully understand the importance of managing a brand. John R. Wallis, vice president of marketing, Hyatt International Corporation, says *Strategic Marketing Communications* by Paul Russell Smith, Paul Smith, Chris Berry, and Alan Pulford (1999) follows the CIM Advanced level syllabus in Marketing Communications. This text covers key areas of the process and includes pro forma documents for topics such as SWOT analysis, creative briefs, and media briefs.
