

MCB 201: GENERAL MICROBIOLOGY (DR G. C. IHEANACHO SECTION)

Shapes and arrangement of bacteria. Identification of bacteria –Overview of cultural characteristics, Gram staining, biochemical tests. Nutritional categories and biochemical activities of microorganism. Microbial Nutrition, cultivation and growth;
Batch and continuous growth cultures; phases of growth in batch culture. Environmental factors influencing growth: temperature, oxygen, pH, moisture, salinity, etc.
Antimicrobial agents: antibiotics, static and cidal agents, sterilization, disinfection, sanitization, antiseptic. Methods of controlling microorganisms; physical, chemical and radiation techniques, Major groups of disinfectants:

SHAPES AND ARRANGEMENTS OF BACTERIA

Bacteria has two common shapes: a. cocci (plural coccus) b. Rods (bacillus)

- a. Cocci are roughly spherical in shape. They can exist individually but may also come in other arrangements like:
 - i. Diplococcic – cocci divides and remains in pairs
 - ii. They may also exist in long chains of cocci which divide and remain attached to each other, eg. *Streptococcus*, *Enterococcus*
 - iii. They can exist in clusters of cocci, eg. *Micrococcus*
- b. Rods. This is often referred to as bacillus (plural bacilli)
- c. Bacteria can also be unusually shaped. The *Actinomyces* form longhyphae that may branch to produce a network called mycelium
- d. Bacteria may also form rods twisted into spirals or helices which are called spirilla if rigid or spirochetes, if flexible.
- e. Some bacteria are pleomorphic – showing variable shapes.
- f. Some bacteria could also be flat or square shaped

IDENTIFICATION OF BACTERIA

Identification of bacteria (preliminary or conclusive) can be based on a number of factors namely:

- a. Microscopic examination of specimen
- b. Growth study and biochemical characteristics of isolates
- c. Immunologic tests that detects antibodies and antigens
- d. Bacteriophage typing
- e. Molecular methods

NB. A **bacteriophage** is a virus that uses a bacteria as its host. **Bacteriophage typing** is a technique which identifies bacteria based on the type of phage they are susceptible to.

Mcb 201 Pdf:

Migration, Diaspora and Information Technology in Global Societies Leopoldina Fortunati, Raul Pertierra, Jane Vincent, 2013-03-01 Migrants and diaspora communities are shaped by their use of information and communication technologies. This book explores the multifaceted role played by new media in the re-location of these groups of people, assisting them in their efforts to defeat nostalgia, construct new communities and keep connected with their communities of origin. Furthermore, the book analyses the different ways in which migrants contribute along with natives in co-constructing contemporary societies, a process in which the cultures of both groups are considered. Drawing on contributions from a range of disciplines including sociology, anthropology, psychology and linguistics, it offers a more profound understanding of one of the most significant phenomena of contemporary international societies: the migration of nearly a billion people worldwide and the relationship between technology and society.

Class, ethnicity and religion in the Bengali East End Sarah Glynn, 2016-05-16 This exploration of one of the most concentrated immigrant communities in Britain combines a fascinating narrative history, an original theoretical analysis of the evolving relationship between progressive left politics and ethnic minorities, and an incisive critique of political multiculturalism. It recounts and analyses the experiences of many of those who took part in over six decades of political history that range over secular nationalism, trade unionism, black radicalism, mainstream local politics, Islamism and the rise and fall of the Respect Coalition. Through this Bengali case study and examples from wider immigrant politics, it traces the development and adoption of the concepts of popular frontism, revolutionary stages theory and identity politics. It demonstrates how these theories and tactics have cut across class-based organisation and acted as an impediment to addressing socio-economic inequality, and it argues for a left materialist alternative. It will appeal equally to sociologists, political activists and local historians.

Global Virology III: Virology in the 21st Century Paul Shapshak, Seetharaman Balaji, Pandjassarame Kanguene, Francesco Chiappelli, Charurut Somboonwit, Lynette J. Menezes, John T. Sinnott, 2019-11-22 Global Virology Volume III Virology in the 21st Century examines work that has been undertaken or is planned in several fields of virology in an effort to promote current and future work, research and health. Fields and methods addressed include virology, immunology, space research, astrovirology, astrobiology, plasmids, swarm intelligence, bioinformatics, data mining, machine learning, neural networks, critical equations and advances in biohazard, biocontainment. Novel and forward-looking methods, techniques and approaches in research and development are presented by experts in the field.

Simulation in Computational Finance and Economics: Tools and Emerging Applications Alexandrova-Kabadjova, Biliana, Martinez-Jaramillo, Serafin, Garcia-Almanza, Alma Lilia, Tsang, Edward, 2012-08-31 Simulation has become a tool difficult to substitute in many scientific areas like manufacturing, medicine, telecommunications, games, etc. Finance is one of such areas where simulation is a commonly used tool. For example, we can find Monte Carlo simulation in many financial applications like market risk analysis, portfolio optimization, credit risk-related applications, etc.

Simulation in Computational Finance and Economics Tools and Emerging Applications presents a thorough collection of works covering several rich and highly productive areas of research including Risk Management Agent Based Simulation and Payment Methods and Systems topics that have found new motivations after the strong recession experienced in the last few years Despite the fact that simulation is widely accepted as a prominent tool dealing with a simulation based project requires specific management abilities of the researchers Economic researchers will find an excellent reference to introduce them to the computational simulation models The works presented in this book can be used as an inspiration for economic researchers interested in creating their own computational models in their respective fields **Railway Review** ,1915

Lifelong Learning Bibliography ,2004 **Gay Market Guide** , Enduring Uncertainty Ines Hasselberg,2016-03-01 Focusing on the lived experience of immigration policy and processes this volume provides fascinating insights into the deportation process as it is felt and understood by those subjected to it The author presents a rich and innovative ethnography of deportation and deportability experienced by migrants convicted of criminal offenses in England and Wales The unique perspectives developed here on due process in immigration appeals migrant surveillance and control social relations and sense of self and compliance and resistance are important for broader understandings of border control policy and human rights *Applied Computer Science for GGOS Observatories* Alexander N.J. Neidhardt,2017-08-08 This book combines elementary theory from computer science with real world challenges in global geodetic observation based on examples from the Geodetic Observatory Wettzell Germany It starts with a step by step introduction to developing stable and safe scientific software to run successful software projects The use of software toolboxes is another essential aspect that leads to the application of generative programming An example is a generative network middleware that simplifies communication One of the book s main focuses is on explaining a potential strategy involving autonomous production cells for space geodetic techniques The complete software design of a satellite laser ranging system is taken as an example Such automated systems are then combined for global interaction using secure communication tunnels for remote access The network of radio telescopes is used as a reference Combined observatories form coordinated multi agent systems and offer solutions for operational aspects of the Global Geodetic Observing System GGOS with regard to Industry 4 0 **The Country Gentleman** ,1908 *Novel Psychoactive Substances* Paul I. Dargan,David M. Wood,2021-09-06 Novel Psychoactive Substances Classification Pharmacology and Toxicology Second Edition provides readers with a comprehensive examination on the classification detection supply and availability of novel psychoactive substances otherwise known as legal highs The book covers individual classes of novel psychoactive substances that have recently emerged onto the recreational drug scene and provides an overview of the pharmacology of the substance and a discussion of their associated acute and chronic harm and toxicity This second edition addresses drugs new to the scene with completely updated and revised chapters Written by international experts in the field this multi authored book is an essential reference for scientists

clinicians academics and regulatory and law enforcement professionals Includes chapters written by international experts in the field Presents a comprehensive overview on the classification detection availability and supply of novel psychoactive substances in addition to the pharmacology and toxicology associated with the substance Offers a single source for all interested parties working in this area including scientists academics clinicians law enforcement and regulatory agencies Provides a full treatment of novel psychoactive substances that have recently emerged onto the recreational drug scene including amphetamines and the synthetic cannabinoid receptors in spice and K2

Information Communication Technologies Concepts Methodologies Tools and Applications is the essential compilation of breaking research in the pivotal areas of social adaptation to information technology This all inclusive reference source examines through case studies empirical analysis and conceptual models the successes and consequences associated with the growth of information communication technologies in the world today

From Rushdie to 7/7 Anthony McRoy,2006 Examines the key events which have led to the rise of radicalised Islam in Britain This work explores the environment which produced the 7 7 London bombings and offers a detailed analysis of the politics of Islamic organisations in the UK *Journal of the Medical Library Association* ,2005 *Index to IEEE*
