Fourth Revolution and the Bottom Four Billion Nir Kshetri, 2023-04-18 Products and services based on advanced technologies such as artificial intelligence and blockchain are normally considered to be for rich consumers in advanced countries Fourth Revolution and the Bottom Four Billion demonstrates how marginalized and vulnerable groups with limited resources can also benefit from these technologies Nir Kshetri suggests that the falling costs and the increased ease of developing and deploying applications based on these technologies are making them more accessible He illustrates how key emerging technologies are transforming major industries and application areas such as healthcare and pandemic preparedness agriculture finance banking and insurance The book also looks at how these transformations are affecting the lives of low income people in low and middle income countries and highlights the areas needing regulatory attention to adequately protect marginalized and vulnerable groups from the abuse and misuse of these technologies Kshetri discusses how various barriers such as the lack of data low resource languages underdeveloped technology infrastructures lack of computing power and shortage of skill and talent have hindered the adoption of these technologies among marginalized and vulnerable groups Fourth Revolution and the Bottom Four Billion suggests that it is the responsibility of diverse stakeholders governments NGOs international development organizations academic institutions the private sector and others to ensure that marginal groups also benefit from these transformative innovations

Digital Exhaust Dale Neef, 2015 Will Big Data supercharge the economy tyrannize us or both Data Exhaust is the definitive primer for everyone who wants to understand all the implications of Big Data digitally driven innovation and the accelerating Internet Economy Renowned digital expert Dale Neef clearly explains What Big Data really is and what's new and different about it How Big Data works and what you need to know about Big Data technologies Where the data is coming from how Big Data integrates sources ranging from social media to machine sensors smartphones to financial transactions How companies use Big Data analytics to gain a more nuanced accurate picture of their customers their own performance and the newest trends How governments and individual citizens can also benefit from Big Data How to overcome obstacles to success with Big Data including poor data that can magnify human error A realistic assessment of Big Data threats to employment and personal privacy now and in the future Neef places the Big Data phenomenon where it belongs in the context of the broader global shift to the Internet economy with all that implies By doing so he helps businesses plan Big Data strategy more effectively and helps citizens and policymakers identify sensible policies for preventing its misuse By conservative estimate the global Big Data market will soar past 50 billion by 2018 But those

direct expenses represent just the tip of the iceberg when it comes to Big Data's impact. Big Data is now of acute strategic interest for every organization that aims to succeed and it is equally important to everyone else. Whoever you are, Data Exhaust tells you exactly what you need to know about Big Data and what to do about it too. Financial Services Marketing Christine Ennew, Nigel Waite, Róisín Waite, 2024-10-02.
