Architectural Engineering Joseph Kendall Freitag, 1909 Architectural Engineering Joseph Kendall Freitag, 2015-06-24
Excerpt from Architectural Engineering With Special Reference to High Building Construction Including Many Examples of Chicago Office Buildings The author has attempted in the following pages to define and illustrate in a manner as practicable as possible such of the fundamental principles in the design of the modern high building as may prove useful to architects and engineers alike While the technical press of the country has devoted considerable attention to many of the individual subjects here considered yet the realization of a want of collective data on the subject of Architectural Engineering has induced the writer to present this volume As more and more of the principles of construction are being added to the curricula of our architectural schools and as many of our engineering students are adopting building construction as a specialty it is hoped that this effort will serve to unite still more closely the work of the one with that of the other The author would mention the efforts of one highly esteemed and dearly beloved in the engineering profession Mr E L Corthell who has been striving for several years to see the two professions united by establishing an International Institute of Engineers and Architects as well as a technical School of Architecture and Engineering at the new University of Chicago The writer would also acknowledge the warm interest displayed in this work by his former professor of engineering Prof C E Greene of the University of Michigan About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *Architectural Engineering, with Especial Reference to High Building Construction ...* Joseph Kendall Freitag, 1902 Architectural Engineering Joseph Kendall Freitag, 2016-06-27 Excerpt from Architectural Engineering With Especial Reference to High Building Construction Including Many Examples of Prominent Office Buildings The author has endeavored in the following pages to define and illustrate in a manner as practicable as possible such of the fundamental principles in the constructive design of modern high buildings as may prove useful to architects engineers and students About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works Architectural Engineering Joseph Kendall
