**Raising Cane in the 'Glades** Gail M. Hollander,2009-11-15 Over the last century the Everglades underwent a metaphorical and ecological transition from impenetrable swamp to endangered wetland At the heart of this transformation lies the Florida sugar industry which by the 1990s was at the center of the political storm over the multi billion dollar ecological restoration of the Everglades Raising Cane in the Glades is the first study to situate the environmental transformation of the Everglades within the economic and historical geography of global sugar production and trade Using among other sources interviews government and corporate documents and recently declassified U S State Department memoranda Gail M Hollander demonstrates that the development of Florida s sugar region was the outcome of pitched battles reaching the highest political offices in the U S and in countries around the world especially Cuba which emerges in her narrative as a model a competitor and the regional other to Florida s self Spanning the period from the age of empire to the era of globalization the book shows how the sugar question a label nineteenth century economists coined for intense international debates on sugar production and trade emerges repeatedly in new guises Hollander uses the sugar question as a thread to stitch together past and present local and global in explaining Everglades transformation

Winston Churchill and Mackenzie King Terry Reardon,2012-10-06 The story of the complex relationship between two world leaders during one of the greatest crises in human history Born just two weeks apart in 1874 Winston Churchill and William Lyon Mackenzie King had much in common Both forged long parliamentary careers and each led his country to victory in World War II A BBC poll deemed Winston Churchill the greatest Briton of all time and Mackenzie King has been judged by a group of historians as the greatest Canadian prime minister Their parallel careers fostered a working relationship that lasted almost fifty years It was not always an easy relationship however Churchill famous for his drink and cigars was impetuous and charismatic an extrovert King a teetotaler during WWII was noted for considering all options before cautiously proceeding Fate threw this ill matched pair together For the first time the vital relationship between these two very different men is explored in depth It is the story not just of two extraordinary leaders but also of the changing bonds between Britain and Canada
