Chapter 38 Digestive And Excretory Systems:

Everything You Need to Ace Science in One Big Fat Notebook Workman Publishing, 2016-08-09 It is the revolutionary science study guide just for middle school students from the brains behind Brain Quest. *Everything You Need to Ace Science* takes readers from scientific investigation and the engineering design process to the Periodic Table, forces and motion, forms of energy, outer space and the solar system to earth sciences, biology, body systems, ecology and more. The BIG FAT NOTEBOOK series is built on a simple and irresistible conceit: borrowing the notes from the smartest kid in class. There are five books in all, and each is the only book you need for each main subject taught in middle school: Math, Science, American History, English, Language Arts, and World History. Inside, the reader will find every subject's key concepts, easily digested and summarized. Critical ideas are highlighted in neon colors. Definitions are explained. Doodles that illuminate tricky concepts in marker. Mnemonics for memorable shortcuts. And quizzes to recap it all. The BIG FAT NOTEBOOKS meet Common Core State Standards, Next Generation Science Standards, and state history standards, and are vetted by National and State Teacher of the Year Award-winning teachers. They make learning fun and are the perfect next step for every kid who grew up on Brain Quest.
