Education and Youth Today Yasemin Besen-Cassino, 2016-08-02 This volume brings together the most recent and cutting edge research on the understanding of education It focuses on the lived experience of the students in the context of different educational institutions In doing so it unravels layers of inequalities in the understanding of education

Migrant Britain Jennifer Craig-Norton, Christhard Hoffmann, Tony Kushner, 2018-08-14 Britain has largely been in denial of its migrant past it is often suggested that the arrivals after 1945 represent a new phenomenon and not the continuation of a much longer and deeper trend There is also an assumption that Britain is a tolerant country towards minorities that distinguishes itself from the rest of Europe and beyond The historian who was the first and most important to challenge this dominant view is Colin Holmes who from the early 1970s onwards provided a framework for a different interpretation based on extensive research This challenge came not only through his own work but also that of a new school of students who studied under him and the creation of the journal *Immigrants and Minorities* in 1982 This volume not only celebrates this remarkable achievement but also explores the state of migrant historiography including responses to migrants in the twenty first century
