PPI A Kaplan Company [Practice Exam for the General + Civil Fe Exam](#) Indranil Goswami P.e., Indranil Goswami, Dr, 2013-12 Effective January 2014 the Fundamentals of Engineering FE exams are drastically different. The new format to be delivered via CBT (computer based testing) will become the norm in 2014. The exam can be taken throughout the year unlike the twice a year schedule. The syllabus for the new FE CIVIL exam is very different from the one you would have taken if you took the paper test last October 2013. The test will now have approximately 5 hours and 20 minutes available for approximately 110 questions. In the past AM questions were of the 2-minute variety and PM questions were of the 4-minute variety. Now you have about 3 minutes per question. So the average pace of the exam is about the same. This book has a full-length practice exam with a mix of questions as recommended in the official syllabus www.ncees.org. The only reference that should be used is the FE Reference Handbook 9th edition, preferably the electronic PDF version since the CBT exam will be supported by a PDF version of the handbook rather than a hardcopy. The practice exam contains questions from Mathematics, Probability, Statistics, Computational Methods, Ethics, Engineering Economics, Statics, Dynamics, Mechanics of Materials, Fluid Mechanics, Materials, Hydraulics.
