The Kids Left Behind Robert D. Barr, William Parrett, 2007

The Kids Left Behind: Catching Up the Underachieving Children of Poverty examines critical studies on high performing high poverty schools to identify how schools can fulfill the mission of educating all students to proficiency especially students at risk. The authors identify eight best practices and then further break those down into specific strategies often using real life examples from successful schools. The titles of chapters 4-11 correspond to the eight best practices of high performing high poverty schools identified by the research. Each chapter begins by comparing the Old World of education with the New World of education to show how best practices can revolutionize teaching and learning. Next each chapter outlines specific strategies to implement the practices at the district school and classroom levels. Each chapter concludes with a rubric that readers can use to evaluate the progress of their school or district. The Kids Left Behind compiles the most important research on how low performing high poverty schools can achieve radical improvements in learning for their most vulnerable students and does so in an accessible easy to use format.
