Teaching Online Claire Howell Major, 2015-03-15 Demystifies online teaching for both enthusiastic and wary educators and helps faculty who teach online do their best work as digital instructors It is difficult to imagine a college class today that does not include some online component whether a simple posting of a syllabus to course management software the use of social media for communication or a full blown course offering through a MOOC platform In *Teaching Online* Claire Howell Major describes for college faculty the changes that accompany use of such technologies and offers real world strategies for surmounting digital teaching challenges Teaching with these evolving media requires instructors to alter the ways in which they conceive of and do their work according to Major They must frequently update their knowledge of learning teaching and media and they need to develop new forms of instruction revise and reconceptualize classroom materials and refresh their communication patterns Faculty teaching online must also reconsider the student experience and determine what changes for students ultimately mean for their own work and for their institutions *Teaching Online* presents instructors with a thoughtful synthesis of educational theory research and practice as well as a review of strategies for managing the instructional changes involved in teaching online In addition this book presents examples of best practices from successful online instructors as well as cutting edge ideas from leading scholars and educational technologists Faculty members researchers instructional designers students administrators and policy makers who engage with online learning will find this book an invaluable resource

Weird Olga Khazan, 2020-04-07 Learn why the concept of weird is being reclaimed and turned into a badge of honor used to show how being different culturally socially physically or mentally can be a person's greatest strength Most of us have at some point in our lives felt like an outsider sometimes considering ourselves too weird to fit in Growing up as a Russian immigrant in West Texas Olga Khazan always felt there was something different about her This feeling has permeated her life and as she embarked on a science writing career she realized there were psychological connections between this feeling of being an outsider and both her struggles and successes later in life She decided to reach out to other people who were unique in their environments to see if they had experienced similar feelings of alienation and if so to learn how they overcame them *Weird* is based on in person interviews with many of these individuals such as a woman who is professionally surrounded by men a liberal in a conservative area and a Muslim in a predominantly Christian town In addition it provides actionable insights based on interviews with dozens of experts and a review of hundreds of scientific studies *Weird* explores why it is that we crave conformity how that affects people who are different and what they can do about it First the book dives into the history of social norms and why some people hew to them more strictly than others Next Khazan explores the causes behind and the consequences of social rejection She then reveals the hidden upsides to being weird as well as the strategies that people who are different might use in order to achieve success in a society that values normalcy Finally the book follows the trajectories of unique individuals who either decided to be among others just like them

to stay weird or to dwell somewhere in between Combining Khazan's own story with those of others and with fascinating takeaways from cutting edge psychology research *Weird* reveals how successful individuals learned to embrace their weirdness using it to their advantage

Mathematics Matters in Education Yeping Li, W. James Lewis, James J. Madden, 2017-10-03 This book is inspired by Roger E Howe's contributions to the international communities of mathematics and mathematics education Renowned for his research contributions in the fields of representation theory automorphic forms harmonic analysis and invariant theory Dr Howe has also fundamentally deepened our understanding of the mathematics taught in the early school grades and has challenged and stimulated mathematicians and mathematics educators to work together to examine this part of the mathematical universe more critically and in imaginative new ways This volume will help summarize and highlight Howe's contributions to several topic areas in mathematics education demonstrating the possibility and importance of engaging mathematicians in high impact research in mathematics education and showcasing the importance of cross disciplinary collaboration and exchange

AI-Powered Pedagogy and Curriculum Design Geoff Baker, Lucy Caton, 2025-09-17 *AI Powered Pedagogy and Curriculum Design* offers practical insights and guidance on the effective integration of AI tools into teaching practices and curriculum design While numerous claims exist as to the validity and authenticity of the applications of AI in schools too little attention has been paid to empirical research conducted with and by teachers in real world classrooms This book synthesises diverse viewpoints from teacher educators across disciplines and levels toward a comprehensive context specific understanding of the challenges and best practices for responsibly leveraging Generative AI to enhance outcomes in classrooms Contributors further shed light on how Generative AI can align with standards assessment practices and teacher training programs in different settings Firsthand classroom experiences and experimental approaches of educators in the United Kingdom and Europe will provide current and aspiring teachers with insights into the intersection between AI and teacher empowerment student participation ethical implications and socially just approaches

Oh, Florida! Craig Pittman, 2016-07-05 A New York Times Bestseller *Oh Florida* That name That combination of sounds Three simple syllables and yet packing so many mixed messages To some people it's a paradise To others it's a punch line As *Oh Florida* shows it's both of these and more important it's a Petri dish producing trends that end up influencing the rest of the country Without Florida there would be no NASCAR no Bettie Page pinups no Glenn Beck radio rants no USA Today no Stand Your Ground you get the idea To outsiders Florida seems baffling It's a state where the voters went for Barack Obama twice yet elected a Tea Party candidate as governor Florida is touted as a carefree paradise yet it's also known for its perils alligators sinkholes pythons hurricanes and sharks to name a few It attracts 90 million visitors a year some drawn by its impressive natural beauty others bewitched by its manmade fantasies *Oh Florida* explores those contradictions and shows how they fit together to make this the most interesting state It is the first book to explore the reasons why Florida is so wild and weird and why that's okay Florida couldn't be Florida without that sense of the

unpredictable unexpected and unusual lurking behind every palm tree But there is far more to Florida than its sideshow freakiness Oh Florida explains how Florida secretly subtly influences all the other states in the Union both for good and for ill

The Dumbest Generation Grows Up Mark Bauerlein,2022-02-01 From Stupefied Youth to Dangerous Adults Back in 2008 Mark Bauerlein was a voice crying in the wilderness As experts greeted the new generation of Digital Natives with extravagant hopes for their high tech future he pegged them as the Dumbest Generation Today their future doesn't look so bright and their present is pretty grim The twenty somethings who spent their childhoods staring into a screen are lonely and purposeless unfulfilled at work and at home Many of them are even suicidal The Dumbest Generation Grows Up is an urgently needed update on the Millennials explaining their not so quiet desperation and more important the threat that their ignorance poses to the rest of us Lacking skills knowledge religion and a cultural frame of reference Millennials are anxiously looking for something to fill the void Their mentors have failed them Unfortunately they have turned to politics to plug the hole in their souls Knowing nothing about history they are convinced that it is merely a catalogue of oppression inequality and hatred Why they wonder has the human race not ended all this injustice before now And from the depths of their ignorance rises the answer Because they are the first ones to care All that is needed is to tear down our inherited civilization and replace it with their utopian aspirations For a generation unacquainted with the constraints of human nature anything seems possible Having diagnosed the malady before most people realized the patient was sick Mark Bauerlein surveys the psychological and social wreckage and warns that we cannot afford to do this to another generation

When Texas Prison Scams Religion Michael G. Maness,2023-05-22 When Texas Prison Scams Religion exposes corruption in the Texas Department of Criminal Justice especially in the abuse of religion In many ways this book is a literature review of 1 800 plus works that defends freedom of conscience in prison while exposing the unconstitutionality of the seminary program that buys faith with favor from prisoners The state veritably ordains the prisoner a Field Minister that represents the offices of the Governor TDCJ Director and wardens throughout the prison Therein TDCJ lies about neutrality in a program all about Christian missions and lies again in falsely certifying elementary Bible students as counselors Why is the director sponsoring psychopaths counseling psychopaths In fact TDCJ pays 314 million a year to UTMB for psychiatric care and receives not a single report of the care given and worse for UTMB generates no reports itself The underbelly TDCJ's executive culture of cover up is exposed TDCJ has hired the lowest qualified of the applicant pool many times in the last 25 years and regularly destroys statistics on violence TDCJ Dir Collier led the prison to model Louisiana Warden Burl Cain the most scandal ridden in penal history

according to a host of published news stories for 20 years Therein Collier led TDCJ to favor the smallest segment of religious society within Evangelical Dominionism Texas has no business endorsing the truth of any religion over another We close with a proposal that utilizes the 400 000 000 hours of officer contact over ten years as a definitive influence in contrast to a commissioner that spends less than 10 minutes on each decision Maness has been lobbying Austin for 15 years to definitively access staff for his 100 000 Mothers 1% Certainty Parole Texas Constitutional Amendment which would revolutionize prison culture and save Texans millions of the dollars
