Essentials of Screenwriting Richard Walter, 2010-06-29 Hollywood's premier teacher of screenwriting shares the secrets of writing and selling successful screenplays in this perfect gift for aspiring screenwriters. Anyone fortunate enough to win a seat in Professor Richard Walter's legendary class at UCLA film school can be confident their career has just taken a quantum leap forward. His students have written more than ten projects for Steven Spielberg alone plus hundreds of other Hollywood blockbusters and prestigious indie productions including two Oscar winners for best original screenplay *Milk* 2008 and *Sideways* 2006. In this updated edition, Walter integrates his highly coveted lessons and principles from *Screenwriting* with material from his companion text *The Whole Picture* and includes new advice on how to turn a raw idea into a great movie or TV script and sell it. **Beyond The Bridge** Tobias Hochscherf, Heidi Philipsen, 2017-02-28 Drawing worldwide acclaim from critics and audiences alike, programmes like *The Killing*, *Borgen*, *The Bridge* and *The Legacy* demonstrate widespread fascination with Danish style aesthetics and culture as seen through television narratives. This book uses familiar alongside lesser known case studies of drama series to demonstrate how the particular features of Danish production from work cultures to storytelling techniques and trans-national cooperation have enhanced contemporary Danish drama's appeal both at home and abroad. The era of globalisation has blurred national and international television cultures and promoted regular cross-fertilisation between film and television industries. Important questions have emerged from this context surrounding, for example, the Americanisation of foreign television formats, the meaning and practice behind the term 'quality television' and the purpose and efficacy of public service broadcasting. *Beyond the Bridge* tackles these issues in relation to Danish television by examining the so-called scaffolded production processes behind the making of quality serials and their thought-provoking content. Drawing on popular motifs from these celebrated dramas such as foreign politics, organised crime, global warming and the impact of multinational corporations, this timely book provides crucial insight into the Danish dramas at the forefront of sophisticated, forward-thinking fictional television.

Audio Description Anna Maszerowska, Anna Matamala, Pilar Orero, 2014-10-15 Audio description (AD) is a narrative technique which provides complementary information regarding the where, who, what and how of any audiovisual content. It translates the visuals into words. The principal function of this ad hoc narrative is to make audiovisual content available to all, be it a guided city tour of Barcelona, a 3D film or a Picasso painting. Audio description is one of the younger siblings of Audiovisual Translation and it is epigonic to the audiovisual translation modality chosen. This book is the first volume on the topic written in English and it brings together an international team of leading audio description teachers, scholars and practitioners to address the basic issues regarding audio description strategies. Using one stimulus, Quentin Tarantino's film *Inglourious Basterds* (2009), the authors analysed what, when, where and how to audio describe. The book is written in a collaborative effort following a bottom-up approach. The many issues that

surfaced in the process of the analysis were grouped in broader categories represented in the ten chapters this book contains A good example of a successful international collaboration the volume sets a robust practical and theoretical framework for the many studies on audio description to come in the future Considering the structure of the individual contributions the book is not only oriented towards the identification of the challenges that await the describer but it also offers an insight into their possible solutions
