web determination of rate laws peter c jordan chapter 725 accesses abstract altering the constraints on a chemical system poses two distinct questions what is the new equilibrium configuration how rapidly does the system approach this new state the first is a problem of applied thermodynamics the second is the central problem of chemical kinetics

5 8 experimental determination of rate laws chemistry - May 10 2023

web the determination of a rate law is a matter of finding an empirical equation that adequately describes reaction rate data we can distinguish two general approaches to this task one approach is to measure reaction rate directly that is for a b c a b c we measure the reaction rate in experiments where the concentrations a a
