Sik Jeong, Yi Pan**

Computer Science Academic Journal:

Writing Successful Undergraduate Dissertations in Games Development and Computer Science Thomas Hainey, Gavin Baxter, 2022-11-23 Writing a dissertation in the final year at university can be a highly daunting task for any student but particularly if the degree is practically oriented and implementation based This book provides an accessible concise guide to producing a dissertation in computer science software engineering or games development degrees with research projects typically involving design implementation testing and evaluation Drawing on the authors extensive knowledge and experience of supervising dissertation students the book offers a step by step guide to the key areas of writing a dissertation alongside real life examples Chapters cover Producing literature reviews Formulating research questions Understanding epistemologies Selecting methodologies and research methods Software development life cycle methodologies Evaluation statistical analysis and formulating conclusions Working methodically through the different stages of writing a dissertation this is an essential comprehensive guide for all students producing any form of dissertation in computer science software engineering or games development

Interdisciplinary Advances in Information Technology Research Khosrow-Pour, D.B.A., Mehdi, 2013-03-31 Over the last few decades the constant developments in the IT field have expanded into nearly every discipline and aspect of life Interdisciplinary Advances in Information Technology Research explores multiple fields and the research done as well as how they differentiate and relate to one another This collection provides focused discussions from unique perspectives on the latest information technology research Researchers practitioners and professionals will benefit from this publication s broad perspective

Advances in Computer Science and Ubiquitous Computing James J. Park, Doo-Soon Park, Young-Sik Jeong, Yi Pan, 2019-12-03 This book presents the combined proceedings of the 10th International Conference on Computer Science and its Applications CSA 2018 and the 13th KIPS International Conference on Ubiquitous Information Technologies and Applications CUTE 2018 both held in Kuala Lumpur Malaysia Dec 17 19 2018 The aim of these two meetings was to promote discussion and interaction among academics researchers and professionals in the field of ubiquitous computing technologies These proceedings reflect the state of the art in the development of computational methods involving theory algorithms numerical simulation error and uncertainty analysis and novel applications of new processing techniques in engineering science and other disciplines related to ubiquitous computing

Using the Engineering Literature Bonnie A. Osif, 2016-04-19 With the encroachment of the Internet into nearly all aspects of work and life it seems as though information is everywhere However there is information and then there is correct appropriate and timely information While we might love being able to turn to Wikipedia for encyclopedia like information or search Google for the thousands of links

Springer Handbook of Science and Technology Indicators Wolfgang Glänzel, Henk F. Moed, Ulrich Schmoch, Mike Thelwall, 2019-10-30 This handbook presents the state of the art of quantitative methods and models to understand and assess the science and technology system Focusing

on various aspects of the development and application of indicators derived from data on scholarly publications patents and electronic communications the individual chapters written by leading experts discuss theoretical and methodological issues illustrate applications highlight their policy context and relevance and point to future research directions A substantial portion of the book is dedicated to detailed descriptions and analyses of data sources presenting both traditional and advanced approaches It addresses the main bibliographic metrics and indexes such as the journal impact factor and the h index as well as altmetric and webometric indicators and science mapping techniques on different levels of aggregation and in the context of their value for the assessment of research performance as well as their impact on research policy and society It also presents and critically discusses various national research evaluation systems Complementing the sections reflecting on the science system the technology section includes multiple chapters that explain different aspects of patent statistics patent classification and database search methods to retrieve patent related information In addition it examines the relevance of trademarks and standards as additional technological indicators The Springer Handbook of Science and Technology Indicators is an invaluable resource for practitioners scientists and policy makers wanting a systematic and thorough analysis of the potential and limitations of the various approaches to assess research and research performance

Modern Entrepreneurship and E-Business Innovations Nasir, Süphan,2013-02-28 Technology has emerged as an important component in businesses and organizations by allowing for modern innovations through the internet and other information and communication technologies Modern Entrepreneurship and E Business Innovations provides advanced knowledge of e entrepreneurship and innovation as well as emerging theories applications and challenges This book is an essential reference source for researchers practitioners and executives interested in a better understanding of a comprehensive framework for e business and entrepreneurship Encyclopedia of Computer Science Anthony Ralston,Chester L. Meek,1976 *Multilingual and Multimodal Information Access Evaluation* Pamela Forner,Julio Gonzalo,Jaama Kekäläinen,Mounia Lalmas,Maarten de Rijke,2011-09-09 This book constitutes the refereed proceedings of the Second International Conference on Multilingual and Multimodal Information Access Evaluation in continuation of the popular CLEF campaigns and workshops that have run for the last decade CLEF 2011 held in Amsterdam The Netherlands in September 2011 The 14 revised full papers presented together with 2 keynote talks were carefully reviewed and selected from numerous submissions The papers accepted for the conference included research on evaluation methods and settings natural language processing within different domains and languages multimedia and reflections on CLEF Two keynote speakers highlighted important developments in the field of evaluation the role of users in evaluation and a framework for the use of crowdsourcing experiments in the setting of retrieval evaluation *Core List of Books and Journals in Science and Technology* Russell H.
