Reading Vincent Quinn,2020-06-01 Why do we read and have we always read in the same way Reading A cultural practice uses a rich variety of literary and visual sources to explore how reading has changed and continues to change in response to new technologies and shifting social pressures Drawing on medieval illustrations classic fiction the art and literature of the Bloomsbury Group and contemporary e culture the book shows that there is no single unchanging thing called reading instead it is something that mutates over time Throughout history ways of reading and theories of reading have been shaped by religious and educational institutions This continues to be true but current approaches to reading are also conditioned by debates over digital culture and social media use Reading A cultural practice re frames these contemporary preoccupations by offering a long view on how our notions of books and reading alter according to social and historical context

New Critical Nostalgia Christopher Rovee,2024-01-02 New Critical Nostalgia weighs the future of literary study by reassessing its past It tracks today s impassioned debates about method back to the

discipline's early professional era when an unprecedented makeover of American higher education with far-reaching social consequences resulted in what we might call our first crisis of academic life. Rovee probes literary study's nostalgic attachments to this past by recasting an essential episode in the historiography of English: the vigorous rejection of romanticism by American New Critics in the new light of the American university's tectonic growth. In the process he demonstrates literary study's profound investment in romanticism and reveals the romantic lyric's special affect: nostalgia as having been part of English's professional identity all along. *New Critical Nostalgia* meticulously shows what is lost in reducing mid-century American criticism and the intense, quirky, and unpredictable writings of central figures such as Cleanth Brooks, Josephine Miles, and W. K. Wimsatt to a glib monolith of New Critical anti-romanticism. In Rovee's historically rich account grounded in analysis of critical texts and enlivened by archival study, readers discover John Crowe Ransom's and William Wordsworth's shared existential nostalgia, witness the demolition of the immature Percy Shelley in the revolutionary textbook *Understanding Poetry*, explore the classroom give and take prompted by the close reading of John Keats, consider the strange ambivalence toward Lord Byron on the part of formalist critics and romantic scholars alike, and encounter the strikingly contemporary quantitative studies by one of the mid-century's preeminent poetry scholars, Josephine Miles. These complex and enthralling engagements with the romantic lyric introduce the reader to a dynamic intellectual milieu in which professionals with varying methodological commitments from New Critics to computationalists working in radically different academic locales from Nashville and New Haven to Baton Rouge and Berkeley wrangled over what it means to read with nothing less than the future of the discipline at stake.

Literary Theory Terry Eagleton, 2011-11-30 A quarter of a century on from its original publication *Literary Theory: An Introduction* still conjures the subversion, excitement, and exoticism that characterized theory through the 1960s and 70s when it posed an unprecedented challenge to the literary establishment. Eagleton has added a new preface to this anniversary edition to address more recent developments in literary studies, including what he describes as the growth of a kind of anti-theory and the idea that literary theory has been institutionalized. Insightful and enlightening, *Literary Theory: An Introduction* remains the essential guide to the field. 25th Anniversary Edition of Terry Eagleton's classic introduction to literary theory. First published in 1983 and revised in 1996 to include material on developments in feminist and cultural theory. Has served as an inspiration to generations of students and teachers. Continues to function as arguably the definitive undergraduate textbook on literary theory. Reissue includes a new foreword by Eagleton himself reflecting on the impact and enduring success of the book and on developments in literary theory since it was first published.

Talking Book Topics, 2014-07 [Writing and Reading Differently](#) George Douglas Atkins, Michael L. Johnson, 1985 *JEGP, Journal of English and Germanic Philology* Gustaf E. Karsten, 1988 [A Community of Voices](#) Toby Fulwiler, Arthur W. Biddle, 1991-12 *Teaching and Learning Language Collaboratively* James L. Collins, 1991 *The Publishers' Trade List Annual*, 1984 *Law and Literature* Maria Aristodemou, 2000 Any attempt to understand the world by

means of language in law or in literature imposes an artificial order on what is beyond our comprehension. However, whilst literature admits its own artificiality, law insists that it provides not only all the answers but all the right answers. Using examples ranging from Greek myth to contemporary writing, film and popular music, Aristodemou works from the assumption that not just literature but also law are fictions and she suggests ways in which literature can help us understand better the mythic origins of law. In doing so, she shows how we can learn from the law-making qualities of literature new ways of addressing and living with the fictionality of law.
