

The Professional Review day

The Professional Review day comprises:

- A presentation
- An interview
- A written exercise

Presentation

Your Professional Review interview will begin with a 15-minute presentation to your reviewers based on a topic, or topics, covered in your Professional Review report. You should provide an in-depth description of what you have done, that expands on your report and highlights your involvement.

You are encouraged to use visual aids to illustrate your presentation, but they should be no larger than A3. You're permitted to use a laptop computer, but external power supplies will not be provided.

Interview

You will then be interviewed by your reviewers, who will seek to confirm you have achieved the required level of competence, as stated in your report. The presentation and interview will last a maximum of one hour for MPR/CPRP and 75 minutes for CPR.

If you haven't demonstrated sufficient evidence of a particular attribute in your report, your reviewers will pose specific questions to try to draw out your knowledge and experience in that area.

Written exercise

You will be set two questions by your reviewers and must answer one in the allotted two hours. Questions will be based on subjects that relate to your experience, but you'll still need to prepare for the written exercise by studying and gaining industry-related knowledge.

The aim of the written exercise varies slightly:

- At MPR, the objective is to ascertain that you can produce straightforward documents without assistance from others.
- At CPR and CPRP, the aim is to test your ability to organise your thoughts, and present them logically and clearly.

Although it is not a direct test of engineering knowledge, sufficient understanding and knowledge of the professional subject matter is required. Factual errors or lack of knowledge could affect the outcome, but examples of well-reasoned personal opinion will not.

You can find detailed guidance on the written exercise in Appendix D.
