## Subjective

### Concerns of Child

Joshua seems to be anti-social with his peers at day care, and seems generally uninterested in activities. Joshua prefers to be by himself, which is affecting social development, according to caregivers.

### Feelings of Child

When prompted, Joshua responded that he does not like others, and that they are "weird." He did not answer many questions, and instead kept his head down. Appears unbothered.

## Objective

### Toys Used

Action figures in town set

### Play Themes

- Lack of attachment
- Controlling
- Messing
- General negative interactions

### Verbal Themes

- Boredom

### Changes in Play Behavior

Play became more negative when I attempted to interfere with his scene. Joshua did not appreciate outside input, and preferred to control the scene himself, despite lack of interest.

### Limits Set

- The buildings are not made to be destroyed

## Assessment

Joshua used action figures to play a scene within a town set. He demonstrated a lack of attachment, expressing boredom, and made a mess of the scene with lack of care. He controlled the elements, and wouldn't let me interfere.

## Plan

Joshua demonstrates clear anti-social and detachment issues, with a general lack of interest. He can withdraw if feeling threatened, such as my interference, and so it is recommended that Joshua sees me next week to evaluate child therapy options.
