from the situation or needing assurance that their reasons are valid The tidbit explores how we can avoid violence altogether exploring strategies for healing wounds enacting new strategies that promote peace and looking at story forms that create a culture of peace Most wars between individuals are of the cold rather than the hot variety lingering resentment for example grudges long held resources clutched rather than shared help not offered These are the acts of war that most threaten our homes and workplaces Arbinger Institute Disclaimer This summary is meant to enhance your reading experience The insights analysis and overall essence is unofficial work and not the original book It is not intended as a substitute for the original work it summarizes It is not licensed approved authorized or endorsed by the original author or publisher **The Publishers' Circular and Booksellers' Record** ,1930 *Political Globalization* James A. Yunker,2007-08-05 According to conventional opinion world government would be undesirable because it might develop into global tyranny as well as almost certainly entailing bureaucratic overload This work vigorously contests this conventional opinion on the basis of an innovative plan for a limited world government tentatively designated the Federal Union of Democratic Nations Although the proposed federation would represent a quantum advance beyond the United Nations of today it would at the same time operate under some key restraints such as the reserved right of member nations to withdraw from the Federal Union at their own unilateral discretion Yunker argues that despite these restraints the Union would make a valuable contribution to the future security and prosperity of human civilization He makes a compelling case that political globalization could and should complement the ongoing economic and cultural globalization of the contemporary era Visionary yet pragmatic this book represents the most up to date comprehensive and sophisticated advocacy of world government to be found in world federalist literature Although Political Globalization is most directly aimed at international relations specialists and policy makers it will also be highly illuminating and thought provoking to all those with a serious interest in humanity s long term future
